Foreword

Dear Readers:

The love of the Qur'an, the Surats, and the Peace, has been a lifelong journey for me that started in the small village of Sid Al Boushiria, a suburb of Beirut, Lebanon. Most of my neighbors growing up were Christians. My father came from the mountains of Lebanon to look for work in the city and settled in Sid Al Boushiria, where I was born on the Nineteenth of May 1938. Shortly after my birth, my parents moved our family to the neighboring village of Al Dickwana, where I grew up on a farm. Since the majority of my neighbors were Christian, so were most of the schools; my father enrolled my brother and I in a Christian school in Beirut named the *School of Wisdom*.

I grew up surrounded by Christian, Muslim, and Jewish friends. I was exposed to the love of God from different perspectives. I loved all my friends, whether they were Muslim, Christian, or Jew because I believe that they are peaceful people. While we are all bound together by a love for the One God, I still felt that there was something missing, a common thread that made sense of everything and bring us closer.

God works in mysterious ways. He reveals answers to our questions when we least expect them - because it is in his time, and we may find the perfect answers. One day, I was prompted to read Surat (chapter) 74 in the Qur'an, the book of God for the Muslims. Fascinated

by Surat 74 entitled *Wrapped in his Cloak*, I carefully read through it and soon approached verse 30 which says: **“On it are Nineteen.”74:30**

Intrigued by this number, I started asking myself what does Nineteen have to do with anything? What does it mean? I didn’t have far to go to find the answers to my questions. I only had to look to the following verse 31 that said:

“And we have set none but angels as guardians of the fire, and we have fixed their number only as a trail for the unbelievers; in order that the people of the book, may arrive at certainty, and that no doubts may be left for the people of the book and the believers, and that those in whose hearts is a disease and the unbelievers may say, what symbol doth God intend by this? Thus doth God leave to stray whom he please; and guide whom he please; and none know the forces of the Lord, except He, and this is no other than a warning to mankind”

After reading verse 31, I knew this was the explanation that I was looking for. I understood the number Nineteen had to do with those who believed in the one true God: the three monotheistic religions. Shortly after that, I started my research about the number Nineteen and it led me to writing my first book, *Mysterious 19*. I continued on with my research and found more evidence of the miracle of Nineteen in The Qur’an. I have gathered these miracles and detailed them in this book that I want to share with you. I believe with certainty, one day, the believers in **God** will be united in *The Circle of God*.

Chapter 1

An introduction to the Holy Quran and the Prophet Muhammad:

Nineteen encoded & Chromosome 19:

The Qur'an is a Holy book simply because every single Surat (chapter) and every single Ayat (verse) of the Qur'an is the unconditional word of God. Any devout Muslim no matter what culture or sect believes the Qur'an is a collaboration of the Holy Surats and Ayats for Muslims to use for prayer and also a tool to guide the individual to a spiritual path that leads one to a lifestyle of piety and love.

The man, who delivered this message to the Arabian Peninsula and soon after the entire world, is a humble merchant by the name of Muhammad Ibn Abdullah. Muhammad was always a spiritual man; he would often meditate and fast in a cave at the dessert hill of Hira'a. On the 19th day of the Holy Month of Ramadan, observed by Muslims today, the Arch Angel Gabriel communicated to Muhammad. It was through the Angel Gabriel that Muhammad so often received revelations, verse after verse from God. Muhammad had a duty to spread God's Message.

The Prophet Muhammad was an illiterate man; he was given the strength to accurately memorize the revelations that Gabriel passed on to him. Literacy was not common among the Arabs of that time, so faithful believers of God and his messenger, the Prophet Muhammad, would embrace the revelations through memorization. Believers would repeat the revelations with impeccable precision over and over until the prayer Ayat or Surat became second nature – similar to the embossed memory of a childhood song, knowing every single word just as it was taught.

The words in the Holy Qur'an have never been changed; every word, Ayat, and Surat has been preserved since it was revealed. These revelations were then joined into a book by the Prophet's first cousin (first Imam of the Twelve Imams) Ali Ibn Abi Talib; and the Holy book was most appropriately referred to as the Qur'an, meaning *recitations*. The order that the Surats were revealed to the Prophet Muhammad and the order that they are listed in the Holy Qur'an's formal index interestingly are not the same, I explore this phenomena in later chapters.

It is interesting to note that the very first Surat revealed to the Prophet Muhammad is Surat Al-A'laq. Surat Al-A'laq consists of Nineteen (19) verses in the Holy Book, "The Qur'an". The occurrence of The Prophet, encounter with the Angle Gabriel and the first revelation

given to him is quite captivating. Angel Gabriel commanded Muhammad, “**Read!**” Muhammad answered, “I cannot read.” Angel Gabriel repeated, “**Read!**” Muhammad answered again, “I cannot read!” Muhammad felt a very strong embrace tightening around his chest and he fell to the ground. Gabriel repeated again for the third time, “**Read!**” Muhammad answered, “What can I read?” Angel Gabriel begins the revelation:

- 1- Read, in the name of thy Lord who created;**
- 2- Created man from hooks (chromosomes).**
- 3- Read, and it is thy Lord the most bountiful;**
- 4- Who taught by the pen.**
- 5- Taught man that which he knows not.**

The number 19 is clearly encoded within these five verses: This Surat is the first revelation given on the **Nineteenth** day of Ramadan from **God** to his prophet and messenger **Muhammad**. It is positioned in Chapter 96 of the Holy Qur’an. In Surat **Al-A’LAQ**, there are **19** verses and the total sum of letters in this Surat is **285**, a product of **19 times 15; (19 x 15 = 285)**. If you were to examine the first five verses in its original Arabic form, you would find there are exactly **Nineteen** words and **seventy-six** letters. **Seventy-six** is a product of **Nineteen multiplied by 4; (19 x 4 = 76)**. The miracle of **Nineteen** will only keep appearing repeatedly in

time. The prophet was born in **570 A.D.** This number is a product of **19 by 30; ($19 \times 30 = 570$)**. The life of the Holy Prophet Muhammad consists of:

- ❖ Nature reared and taught the holy prophet **Muhammad** for **Nineteen** years.
- ❖ **Muhammad** worked among his people for **Nineteen** years.
- ❖ **God** sent the revelations of the holy **Qur'an** to the **Prophet Muhammad** to share with mankind over a period of **Nineteen** years.
- ❖ **The Prophet** saw the growth of **Islam** for **five years**, and if you add this numerical time line, the sum is **sixty-two, the age that the Holy Prophet left this earth and died like any human and returned to God.**
- ❖ The number **five** indicates that the **Holy Prophet Muhammad** is the **fifth prophet** and **the last messenger of God.**
- ❖ Surat **Al-A'lq** was the first revelation to **The Holy Prophet Muhammad**. In this chapter I found many great miracles that are scientifically sound. You'll see the Arabic verses written in English letters in chart # 1.

Learning and knowing is a virtue. In society, learning is often contagious and explosive, allowing intellectual progression in society and advancement on many levels. This is true with the dawn of the **Nineteenth Century**, when the world became a different place. Surat **Al-A’laq** is symbolic to human advancement. This Surat is self-

explanatory, with the exception of the word Al-A'laq. Al-A'laq roughly translates to “the hooks” in English. In this chapter, the first two Ayats or verses state:

“Read, in the name of your Lord who created.”

“He who created man from hooks.”

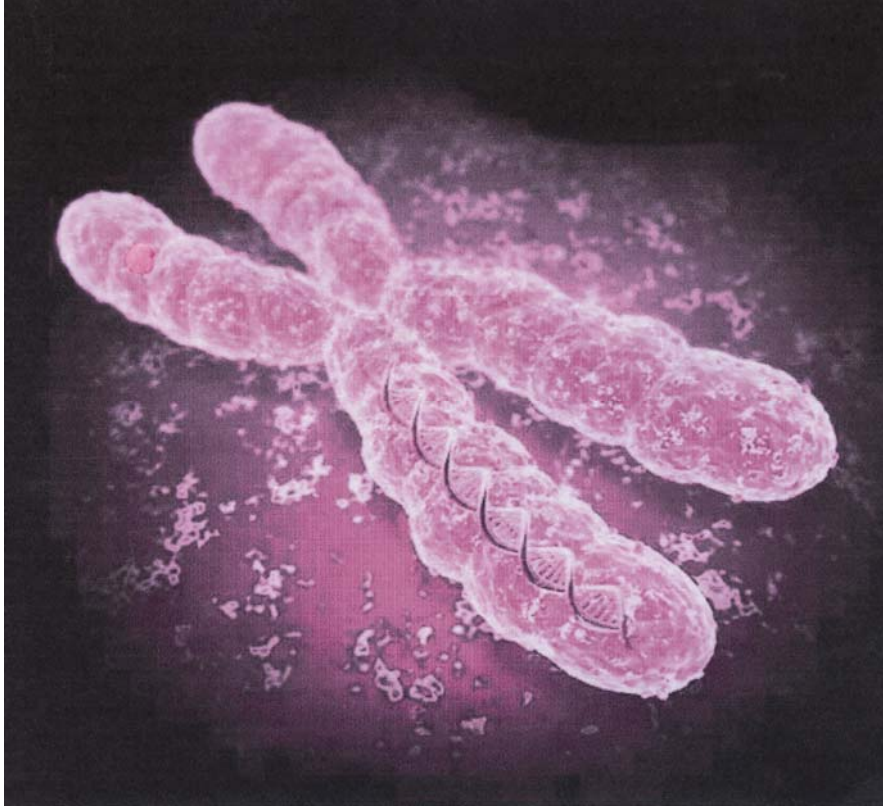

Before the Nineteenth Century, man had little knowledge of modern technology. Theologians interpreted the word **“hooks”** many different ways, without logical reasoning. The Nineteenth Century brought answers and discoveries to the areas of technological and scientific advancements. Today, the interpretation of “hooks” is known to Muslim scholars through scientific discovery. “Hooks” draw a simile to a clot of blood or primitive leaches.

Following the Nineteenth Century, scientists discovered that the egg cell, in a woman, has twenty-three chromosomes. Under the microscope, these chromosomes resemble hooks! The sperm cell fertilizes the egg with its own twenty-three chromosomes and together, they create a new cell with their combined forty-six chromosomes. These chromosomes hook together to begin the process of procreation. The miracle of life is amazing. Modern technology has proven what God said is true. This evidence demonstrates that the Almighty God is teaching man by

enlightening his mind so that he may discover and know what he did not know before.

I yearned for enlightenment. I've searched for it and I've found a miracle.

My research is unique, and the number Nineteen is a miraculous number. I have found that the miracle of the number Nineteen is present in the Holy Qur'an and I have found a correlation with this in the philosophy of *The Circle of God*. *The Circle of God* is a peaceful and a numerically sound collaboration of meaningful numbers, and encompasses all three of the religions of Abraham; Judaism, Christianity, and Islam. I have explored the number Nineteen in the Holy Books of God and I have uncovered wonderful discoveries. I strongly believe, with no doubt in my mind or in my heart that Almighty God designed these miracles for the Nineteenth century and beyond to take notice of. On the next few pages I represent to you the new discovery about Chromosome 19. This is the beginning of entering a new world of cures to all kind of diseases affected mankind. The Almighty God is enlightening man's mind to better our lives.

Gene-Rich Human Chromosome 19 Sequence Completed

Walnut Creek, CA—The United States Department of Energy (DOE) Joint Genome Institute (JGI) and Stanford University report today the completion of the sequencing of human chromosome 19, the most gene-rich of all the human chromosomes. This achievement is described in the April 1, 2004 edition of the journal *Nature*.

"Culminating 18 years of research, this partnership exemplifies DOE's commitment to advancing our understanding of the complex interplay between our human health and the environment," said Energy Secretary Spencer Abraham, whose agency funded the work through its Office of Science.

Embedded in this sequence information are critical regulatory networks of genes tasked with controlling such functions as repairing DNA damage caused by exposure to radiation and to other environmental pollutants. Studies of DNA-repair genes, initiated at the DOE national laboratories, are yielding insights into the development of certain cancers, many of which appear to be caused by defects in DNA-repair pathways. Also, new insights are being gleaned about other gene families implicated in detoxifying and excreting chemicals foreign to the body.

"With this high-quality sequence now made freely available to the scientific community, more light will be shed on individual responses to medicines," Abraham said. "This will enable the development of more sensitive diagnostics for susceptibility to a wide array of important diseases. In time, with this information in hand, physicians will be able to tailor more effective individualized therapeutic strategies."

Chromosome 19, at 55.8 million bases or letters of genetic code, although representing only about 2 percent of the human genome, features nearly 1,500 genes. They include genes that code for such diseases as insulin-dependent diabetes, myotonic dystrophy, migraines, and familial hypercholesterolemia (an inherited form of elevated blood cholesterol), which increases the risk of cardiovascular disease.

"Beyond the significant revelation that chromosome 19 has more than twice the gene density of the genome-wide average, it also offers a fertile landscape for exploring evolutionary motifs," said JGI Director Eddy Rubin. "An intriguing picture has emerged regarding conservation and divergence, revealing large blocks of gene conservation with rodents as well

as segments of coding and noncoding conservation with more distant species such as the pufferfish, *Fugu rubripes*, which was also sequenced here at the JGI. While not long ago these noncoding regions were considered nonsense, now they are actually proving to have powerful regulatory influence over the genes that they bracket."

The DOE originally selected chromosome 19 as a sequencing target because of the agency's abiding mission of investigating the link between DNA damage from radiation exposure and human cancer. Initial work conducted by Lawrence Livermore National Laboratory in the mid 1990s led to the mapping of multiple DNA-repair genes on chromosome 19. In 1999, the sequencing and finishing projects were transferred to the JGI and the Stanford Human Genome Center, respectively.

"Unlike earlier draft human genome sequences, this version is 500 times better in terms of contiguity and accuracy—which makes a huge difference if you are trying to do biology with that sequence," said Richard Myers, director, Stanford Human Genome Center. "It gives you a sense of the chromosome's topography—one filled with such biologically interesting features as transcription factors, olfactory receptor genes, and zinc finger genes."

Olfactory receptors represent the largest multigene family in higher organisms. They have evolved in response to the need for animals to recognize millions of odors—both threatening and attractive—in their environment. Transcription factors are proteins that need to be recognized by RNA polymerase in order to initiate the elaboration of nucleotides along the DNA molecule. Zinc finger proteins are chains of amino acids that capture a zinc ion and bind to RNA or DNA and play a critical role in a cell's life cycle. These proteins regulate the expression of genes as well as nucleic acid recognition, reverse transcription, and virus assembly. Drug development efforts seek to disrupt these zinc finger structures to prevent viruses from functioning.

Chromosome 19, however, was not without its challenges, Myers added. "The sequence was harder to work through than expected. It's a real tribute to this team that they could get the sequence finished."

Stanford's role in the collaboration is the critical one of "finishing" the DNA sequence. The finishing process ensures that the information made available through the public databases is completely contiguous, with all ambiguities resolved. This painstaking process begins with the electronic transmission of draft data sets, some 20 billion bytes per week, and shipping of bacteria culture plates from the JGI's Production Genomics Facility in Walnut Creek, Calif. to Stanford.

"To get this level of confidence, several iterations of the genome sequence is required, typically at six to eight times coverage," Myers said. In areas that fail to meet the required quality standard, directed finishing reactions of many different types are performed and the resulting data incorporated back into the draft assembly. Only after rigorous scrutiny, when all data has been extensively reviewed by a human finisher, and all gaps and low-quality areas have been resolved, will the sequence data be posted in the public databases. The quality of the finished chromosome 19 sequence far exceeds the 1 in 10,000 base pair error rate set by the International Human Genome Sequencing Consortium, with the error rate estimated to be much less than 1 in 100,000 base pairs.

"The JGI-Stanford partnership has been integral to the timely and economical completion of chromosome 19," Rubin said. "DOE's contribution to sequencing the human genome totals some 11 percent, with chromosome 19 representing the first of the three chromosomes the team has tackled, together with the completion of Chromosomes 16 and 5 in the offing." The magnitude of the accomplishment is further reflected in the nearly 100 authors cited on the paper led by Jane Grimwood at Stanford and Susan Lucas at the JGI. Other authors include investigators at Lawrence Livermore and Los Alamos national laboratories; UC Santa Cruz; Children's Hospital Oakland, Calif; the Howard Hughes Medical Institute at the University of Washington, Seattle; Case Western Reserve University; and the National Cancer Institute.

The Joint Genome Institute (JGI), located in Walnut Creek, Calif. was established in 1997 by three of the DOE national laboratories managed by the University of California: Lawrence Berkeley National Laboratory and Lawrence Livermore National Laboratory in California and Los Alamos National Laboratory in New Mexico. In addition to its human genome sequencing activities, JGI has whole genome sequencing programs devoted to other vertebrates, microbes, and plants. Funding for the JGI is predominantly from the Office of Biological and Environmental Research in DOE's Office of Science.

The Stanford Human Genome Center (SHGC) is part of the Department of Genetics at Stanford University. SHGC, originally funded as a pilot sequencing center for the human genome project, is currently involved in a variety of scientific research programs, including large-scale genomic finishing, human disease linkage studies, vertebrate diversity, and the elucidation of functional sequence elements in the human genome. Additional information about the SHGC is available at <http://www-shgc.stanford.edu>.

I assert that *The Circle of God* is the foundation of world peace for all mankind. Later chapters will address the facts that back this up. At the beginning of my research, I was astonished at the numerical miracles that I uncovered in the Muslim book of God, the Holy Qur'an. The correlation of the number Nineteen and the Holy Qur'an is not new. From my extensive research, I have drawn the conclusion that the number Nineteen and the Holy Noble Qur'an unmistakably build what I believe is the Circle of God. I have the pleasure to share my work of research with you. I believe my faith is stronger as a result of this, and I pray that yours may grow stronger as well. As God said in surat 74,

Al-Muddather (The One Wrapped in Silence):

"In the name of God the Beneficent the Merciful".

Verse 30 - "Over it is Nineteen*"

Verse 31 - "In order that the people of the Book,

May arrive at certainty,

And the believers may increase in faith,

And that no doubts may be left for the people of the Book,

And the believers.

This is no other than a reminder unto mortals."

This is the beginning of my journey, and the dawn of a genuine peace for all mankind. These words changed my whole life when I read them in the Holy Qur'an.

"بسم الله الرحمن الرحيم"
"عليها تسعة عشر"

Chapter 2

Al-Muddather, Surat 74

The One Wrapped in Silence

If we try to count the molecules of water in the oceans, the seas, the lakes, and ponds around the globe, it might be scientifically possible to do so. However, to count the miracles of God is something that we cannot do. God's miracles are infinite: the Holy book, the Qur'an, is a great miracle in itself. It remains exactly the same as it was, when it was first revealed to the Prophet Muhammad in the Seventh Century. Every letter is counted and every word, and its spelling, remains unaltered, unchanged and understood by all readers. Its language has not become obsolete, nor will it ever. No human or angelic being can compose passages comparable to those found in the Holy Qur'an: **"We have no doubts, Sent down the message, and we will assuredly guard it."**

Surat 15, Ayet 9

Fourteen hundred years have passed and not one letter of the one hundred and fourteen chapters in the Holy Qur'an has ever been altered. The words, the verses and the chapters remain exactly the same as they were revealed to the Prophet Muhammad. This is not necessary for the

mainstream reader. The Holy Qur'an was revealed and written in its original language, Arabic. If you are proficient in Arabic reading and writing, you are able to write without making mistakes in spelling. Making a spelling error in Arabic is not common. This is due to the fact that it is a phonetic language. This is one of the great attributes found in the Arabic language. Why should Arabic readers consider the Holy Qur'an a miraculous book? The quality of the Holy Qur'an is undisputed by scholars and believers alike. Since the Holy Qur'an was revealed, no one has been able to produce one single chapter with the quality of the words and structure found in the Holy Qur'an. This is God's challenge to all mankind. Anyone proficient in the Arabic language can read the Holy Qur'an, understand its messages, and recognize the importance of those messages. No human being has been able to write in the style of the Holy Qur'an: The following revelations in the Holy Qur'an verify the truthfulness of the miraculous Holy Qur'an. The truth comes from The Almighty God.

23 - "And if you are in doubt as to what we have revealed,

From time to time to our servant,

Then produce one chapter like thereunto;

And call your witnesses or helpers,

If there are any besides God,

If your doubts are true.

24 - But if you cannot and of surety you cannot -

Then fear the fire, whose fuel is men and stones,

Which is prepared for those who reject faith.” Surat 2 , Ayet 23, 24

The Qur'an is a foundation for a way of life, given to all mankind by the Almighty, the Supreme, The One God. He is the source of everything, and above all, the source of love and knowledge. Some people may wonder what happens to those born into a faith different from the faiths of others. The holy Qur'an gives the answer:

“In the name of God the Beneficent, the Merciful.”

“Those who believe (in the Qur'an)

And those who follow the Jewish (scriptures)

And the Christians, and the Sabians,

Any who believe in God and the last day

And work righteousness,

Shall have their reward with their Lord,

On them shall be no fear, nor shall they grieve.” Surat 2, Ayet 62

This verse is understood by the followers of God's prophets and messengers: Moses, Jesus, and Muhammad. These verses clearly describe that believers in God the Almighty believe in the hereafter and

know, that with righteous works, they are indeed safe and will enjoy eternity with those that are blessed.

My research started after I read Surat Al-Muddather (the wrapped one in silence), chapter 74, in the holy Qur'an. This chapter was the fourth revelation to the Prophet Muhammad. In this chapter, the number Nineteen is literally mentioned in verse 30. I believe the number Nineteen is miraculous to all mankind. I have included an English translation of chapter 74 that will allow you, if you are not familiar with the Arabic language, to be able to understand the miracles of the holy book, as written in the holy Qur'an. This is achieved partly through the miraculous number Nineteen and the miracles of the Circle of God. Later on, I will show you how the circle is complete and perfect.

English Translation of Al-Muddather (Surat 74)

“In the name of God the beneficent the merciful”

- 1. Oh, you, wrapped in silence,**
- 2. Arise, and deliver the warning!**
- 3. And, to your lord, say God is great!**
- 4. And keep your garments clean and pure.**
- 5. And abstain from all abominations.**
- 6. Boast not of giving and your reward is greater.**
- 7. And for your lord's sake, be patient.**

8. At last, when the trumpet is sounded,
9. That will be, that day, a day of calamity.
10. For the unbelievers, there will be no ease.
11. Leave me with the one I created bare and alone.
12. To whom I granted unlimited resources.
13. And sons as witnesses.
14. For whom I made (life) smooth and comfortable,
15. Yet he is greedy, asking for more.
16. By no means! He has stubbornly rejected our signs.
17. I will oppress him in his ascendancy,
18. For he thought and decided.
19. Then he was killed by his decision.
20. Consequently, he was killed by his decision.
21. Then he pondered.
22. Then he frowned and he scowled;
23. Then he turned back and was haughty.
24. Then he said: This is nothing but hypnotic sorcery,
25. This is nothing but the word of a mortal!
26. I will cast him into Sakar (hell fire).
27. And what do you know about Sakar?
28. He neither lives nor dies.
29. It lures mortals.
30. Over it are *Nineteen**
31. And we have set none but angels, as guardians of the hell fire.
And we have fixed their number, as a trial for the
unbelievers, in Order that the people of the book may arrive
at certainty, and the Believers may increase in faith, and that

no doubts be left with the people of the book, and the believers. And those in whose heart's is a disease, and the unbelievers may say, what does God mean by this symbol (Nineteen)? God leaves whoever wants to stray, stray, and guides whoever wants to be guided. And no one can know, the forces of your lord except He (God). And this is only a warning to mankind.*

32. No, truly, by the moon,
33. And by the night, as it retreats,
34. And by the dawn as it rises,
35. But it (Nineteen) is the greatest miracle.
36. It (Nineteen) is a warning to mankind.
37. To any of you who choose to press forward, or to stay behind.
38. Every soul will be judged for its deeds,
39. Except the companions of the Al-Yameen (the righteous)
40. (they will be in paradise) and question each other,
41. and ask about the criminals (sinners),
42. (turning to the sinners) What led you to Sakar (hell fire)?
43. They said: We were not of those who prayed,
44. Nor did we feed the poor (and helpless),
45. But we used to indulge in sins with sinners,
46. And we used to deny the day of judgment,
47. Until there came to us (the hour) that is certain.
48. Then no intercession by any intercessor will help them.
49. Then what is the matter with them, that they ignore admonition,
50. As if they were frightened asses,

- 51. Fleeing from the lion!**
- 52. Yes every one of them expects to receive scrolls (of revelations)!**
- 53. No! Yet they do not fear the hereafter.**
- 54. No! This surely is a sign to remember (Nineteen)**
- 55. Whoever will, will remember.**
- 56. And they will remember only, what God wills them to remember.**
- 57. He is the lord of righteousness, and the lord of forgiveness.”**

After I read Surat Al-Muddather, I knew here lays a miracle of numbers; verse 30 and 31 from this surat are clear indications of the miracle of Nineteen. Numbers are universal, and no translation is needed. I know for certain the number Nineteen is a miraculous number. All my findings of the numerical miracles are presented in this book. I ask the almighty God to give me the strength to further my research of these miracles and present them to you. The miracle of Nineteen brings a magnificent message to all people on the planet Earth, or any other planet. It is a miracle that brings peace – the Circle of God is evidence of that. God wants us to recognize these miracles. God is the creator of the universe. He is the almighty God. He is number one in everything, and He encompasses everything in his universe.

Chapter 3

BASM and BSM

Two Words One Purpose

About fourteen hundred years ago, revelations from the almighty God were passed down to the Prophet Muhammad. God refers to these revelations as the Qur'an, "the book of reading." Believers in the Qur'an understand this book is the word of God, and it was revealed in the Arabic language. Experts in the language agree that the Qur'an is a magnificent book, clearly like no other. The composition of the Holy Qur'an is in the most sophisticated and classical Arabic language. Since the revelation of the Qur'an, no one has disputed the language of revelation, because it's the people's language. It is elegant, rhythmic, clear, compelling, and enlightening to all listeners. It is also coded with numbers. Let us begin with a short analysis of a minor detail the Almighty wants us to take notice.

"In the Name of God the Beneficent the Merciful" = 38 letters

$$19 + 19 = 38 \text{ letters}$$

$$\begin{array}{c} \text{"بسم الله الرحمن الرحيم"} \\ \text{Letters } 19 = 6 + 6 + 4 + 3 \end{array}$$

This verse begins most chapters as titles in the Qur'an. Allow me to examine the words in this verse. **BSM = 3 letters; ALLH = 4 letters; ALRHMN = 6 letters; ALRHYM = 6 letters.** The sum is Nineteen (19) letters. This is not a coincidence. The word **BSM**, since it was revealed, was revealed with 3 letters, and no one tried to correct the spelling to **BASM** which is the correct spelling. Only and only the word **BSM** spelled with three (3) letters in this unique verse above, as titles to chapters in the Holy Qur'an.

This fact is intriguing because of the paradox it creates. Anyone literate in the Arabic language is well aware that there is only one way to spell any word - except in this case, when **God** intervenes. **BASM / باسم** was obscurely spelled like this: **بسم** (phonetic translation would sound like **BSM**), on three different occasions— and for good reason. God can change any standard especially, if it means to send a miracle. Please follow closely with my observation.

The word **BSM / بسم** which God chose to reveal in this way on three separate occasions is actually missing a letter. Grammatically, this word should look like this: **باسم / BASM**. However, God wanted to

coordinate a miracle of numbers so He omitted a letter in order for this to happen: The verse: **بسم الله الرحمن الرحيم**

composed with the first word spelled with 3 letters: **BSM** or **بسم**. The number of letters in the above verse is **Nineteen (19)** letters. This was the beginning to solve the mystery of miracle **Nineteen**.

The first revelation to the Holy Prophet Muhammad was on Mount Harraa. The first words the prophet Muhammad received 1,400 years ago the same words and the same spelling:

أقرأ بأسم ربك الذي خلق*

Read in the Name of your Lord who created*

The word **BASM** (in the Name of) was revealed and written with 4 letters. **BASM** is the right spelling. I found **Nineteen (19)** words of **BASM** in the entire holy book, **The Qur'an**.

Chart number 1 guides and shows the word **BASM**, has been repeated in the whole **Holy Qur'an Nineteen (19)** times. This is a miracle of the word **BASM**.

There are a total of Nineteen words in Nineteen verses with the word

BASM, spelled with four letters, the correct spelling.

On the other hand, in the verse “In the Name of God the Beneficent the

Merciful” the first word of the verse is spelled with only three letters like

this: **بسم** / **BSM**

بسم الله الرحمن الرحيم

The word **BSM** is found in three chapters with a few interesting

numerical findings to go with it: The word **BSM** appears 3 times:

Chart # 2

<u>Counting #</u>		<u>Chapter #</u>		<u>Verse #</u>
1	+	1	+	1
1	+	11	+	41
1	+	27	+	30
3	+	39	+	72 = 114

Amazingly, the total is 114, which is a product of 19 times 6. Miraculously, 114 is the total number of chapters in the Holy Qur'an. The miracle of Nineteen prevails once again, and our journey continues on.

I was fascinated by the first verse of the opening chapter. At first, and the first word **BSM** was written with three letters instead of four letters BASM, which is the correct spelling in Arabic, The Almighty God interfered, and the word **BSM** was written since it was revealed with three letters for a purpose, and the purpose was to count the letters of the opening verse, and to find the miraculous number Nineteen. In this verse there are four words: **BSM** **ALLH** **ALRHMN** **ALRHYM**. The meaning of the first word is: In the name of, the second word is: God, the third word is: The Beneficent and the fourth word is: The Merciful. The sum of the letters above, in the opening verse in the original Arabic Language is **Nineteen**.

Chapter 4

Amazing verse, and the number of the word Allah or God,

In the Holy QUR'AN

“بِسْمِ - الله - الرحمن - الرحيم”

ALRHYM - ALRHMN - ALLH - BSM

(In the name of **GOD** the beneficent the merciful)

BSM ALLH ALRHMN ALRHYM

Arabic is read from right to left. When you read this opening verse of chapter one of the holy Qur'an, and the title of every chapter in the holy Qur'an except chapter number nine (9), you'll start with the first word BSM, than ALLH and ALRHMN and ALRHYM. The Sum of the letters in this verse is Nineteen (19). Each word in this verse is a multiple of Nineteen. Now I'll list the number of the word **ALLH** or GOD in English in chart number three (3).

The word (ALLH) **GOD** is repeated in the Holy Qur'an **2698 times**. The number **2698** is product of **Nineteen**. **(19 x 142) = 2698**. For anyone who wants to count the words of **GOD** (ALLH) in the Holy Book, **THE QUR'AN**. Look at the following charts, which make it simple and easy.

GOD (ALLAH) occurring in **THE HOLY QUR'AN**.

19 times 142 = 2698* GOD is Great!!!**

THIS IS A GREAT MIRACLE.

190 + 551 + 912 + 1273 + 1634 + 1995 = 6517

All these sums are multiple of Nineteen. Showing the math work:

19 x 10 = 190; 19 x 29 = 551; 19 x 48 = 912; 19 x 67 = 1273;

19 x 86 = 1634; 19 x 105 = 1995

19 x 343 = 6517

The miraculous number Nineteen is well organized by the almighty God. You see in the chart six columns, each column, has Nineteen numbers, and the following numbers are multiple of Nineteen.

Showing the math work of each column: (19 x 1 = 19); (19 x 2 = 38);

(19 x 3 = 57); (19 x 4 = 76); (19 x 5 = 95); (19 x 6 = 114);

Chapter 5

The word AL-RHMN (the beneficent)

The opening verse is the most repeated verse in the Holy Qur'an, and also is repeated daily, and many times. By the Muslim in the world. "BSM ALLH ALRHMN ALRHYM" Translate to: "In the name of God the beneficent the Merciful." In prayers five times a day, in reading the holy Qur'an, the title of every chapter in the holy Qur'an, and even in the daily living of a Muslim, when doing work or rest and especially before a Muslim starts to eat.

Now the word **AL-RHMN** it has been miraculously repeated in the holy Qur'an 57 times. The following chart shows this miracle. The **57** is a multiple of Nineteen: $19 \times 3 = 57$.

The word **Al-RHMN**, as you see in the chart # 5 above, has been repeated in the holy Qur'an 57 times. The Basmalat or the opening verse (1:1) of the holy Qur'an is counted as an Ayat. therefore, The titles of the Surats are not counted as numbered Ayats.

57 words of Al-RHMN only, found in the content of the 114 chapters in the holy Qur'an. The word Al-RHMN contributes to the almighty God and to his Greatness by creating the universe and everything in it. The number Fifty Seven (57) is a multiple of Nineteen (19).

(19 x 3) = 57. Nineteen is God's number; the number three (3) represents the three straight lines in the Circle of God. The five represents the number of the Major Prophets, Noah, Abraham, Moses, Jesus, and Muhammad. The number Seven (7) is in the middle of the Circle of God. Miracles are within Miracles; only God has the power to make miracles. God is great, His greatness is beyond our imagination.

Chapter 6

The word Al-RHYM (the merciful)

“BSM ALLH AI-RHMN AI-RHYM” (In the name of God the Beneficent, the Merciful)-

This verse is called “**Basmala**”. A Basmala is a remembrance to God. To say a Basmala loudly or silently is a way of life a Muslim practices. After searching the word **AI-RHYM** in the entire holy Qur’an except the titles, I found 114 times the word “**AI-RHYM**”. The number 114 is a multiple of Nineteen. $19 \times 6 = 114$. The number of chapters in the holy Qur’an is 114. I understood the mercy of GOD is twice of His creation; God’s creation which is (Al-RHMN) counted in the previous chapter 57 times. It is clear from these miraculous numbers, the mercy of GOD is twice his creation. Now chart # 6 shows the search of the word of “**AI-RHYM**” (The Merciful)

miraculously, the number 114 is the total number of all the chapters

in the holy Qur'an, and is a multiple of Nineteen: (19 x 6) = 114 *

Chapter 7

Surat Al-TOWBAT

“Bsm Allh Al- Rhmn Al-Rhym” translates to: “**In the name of God the Beneficent the Merciful**”. This is the first verse of the first chapter in the holy Qur’an. This verse miraculously became the title of 113 out of 114 chapters in the holy Qur’an. 114 is a multiple of 19. These Basmalats are not counted as numbered verses, rather as an “opening statements”. However, the first chapter in the Qur’an, Al-Fatiha, is a special case where this statement is counted as an actual verse 1:1. The single chapter that does not begin with the Basmala is chapter 9, and has two names, the first one is **Bar’at** (Immunity), and the second is **Al-Towbat** (repentance). This chapter leads us to further discovery of the miraculous path the Nineteen carves for us. Al-Towbat is unique because it lacks the verse that the rest of the chapters have. Ironically, there is another chapter that is unique because it consists of a direct contrary situation than Al-Towbat. Surat 27, **Al-Naml**, translates to “the Ants”, and repeats the **Basmala** twice. Given the interesting characteristics of these two Surats, I explored that notion by analyzing Surats 9 thru 27. I started by listing the numbers 9 to 27 on paper for my eyes to blatantly see.

Chart # 7

First, I found that there are **Nineteen chapters**. Second, I found that if you add these chapter numbers together the sum is 342; (**19 x 18 = 342**). As I begin to show you the miracles of numbers in the Qur'an, it is my hope that slowly a truth will unravel and possibly a new realization will dawn that could change your thinking process. Be prepared to know what to make of all those new shades of grey.

Chapter 8

Exploration of the Introductory Letters

The Glorious Qur'an is the word of God; hence the layers of its passages run deep. Its message is simple and provides the foundation for humans to follow a virtuous life. Its message is intensely deepened with divinity, which would take light years for humans to fathom the answers to questions we cannot even conceive. A "mystery" that Muslims encounter in the holy Qur'an is the meaning of certain letters that are found only in the beginning of twenty-nine different chapters of the Holy Qur'an. These letters do not spell out a word and they simply stand-alone; not only do they stand-alone, but they are considered a verse of its own. Muslims have faith that these letters are significant to God and their meaning is unknown to humans. However, humans have ignored the cues that God laid down for us to discover. The miracle of number Nineteen solves the mystery of these introductory letters. All the introductory letters in the twenty-nine surats work to support the miracle of the number Nineteen and the peace that it will bring to the world.

The Qur'an is a book for human kind, and the introductory letters are present in the Holy Qur'an for mankind to understand. The universal language of mankind is of course, numbers, and this is how I began to unravel meanings behind these letters. I started by counting the number of surats or chapters that consist of Introductory Letters. There are

twenty-nine chapters in the Holy Qur'an that contain the Introductory Letters. In addition, there are also fourteen of these mysterious letters that appear throughout these twenty-nine chapters. These letters may appear in groups of two, three, four, five or just one. The letters are as follow:

Chart 8.

<u>Arabic letter</u>	<u>Phonetic Translation</u>	<u>English Letter comparable</u>
ا	Alif	A
ع	Eye'n	A'
ها	Ha	H
ح	H'a	H'
ك	Kaf	K

م	Meem	M
ن	Noon	N
ق	Quaf	Q
ر	Ray	R
س	Seen	S
ص	Sawd	S'
ط	Tawh	T'
ي	Yeh	Y

Once I uncovered these occurrences, I continued my research with counting the number of times these letters appear throughout the twenty-nine surats. I scoped every word in these twenty-nine surats that contain at least one of these fourteen letters. I started an inventory for every letter and groups of letters. The results I found are absolutely fascinating:

* Thirteen of the twenty-nine surats, or chapters consist of the Introductory Letter **A** or Alif, which stands alone. I isolated these thirteen surats and counted the number of times the letter **A** is found in every word of these surats. The sum of the letter **A** in the thirteen surats is **17,499** which is a product of $(19 \times 921) = 17,499$.

* The conjunction of the Introductory letters **A' & K** (aine and kaf) is present in three out of the twenty-nine surats. I counted all the **A'** and all the **K** which are found in every word of the three surats, and I counted a total of **361** letters in the Surats. **361** is a product of $(19 \times 19 = 361)$.

* Four out of the twenty-nine Surats consist of the introductory letters conjunction **H & Y** pronounced like **(Ha and Ya)**. The total number of **H** and **Y** found throughout these four surats is **1,064**. **1,064** is a multiple of Nineteen. $(19 \times 56 = 1,064)$.

* Seven out of the twenty-nine surats consist of the introductory letter **H' (H'aa)**. The total sum of the **H'** found throughout the seven surats is **304**; which is a multiple of Nineteen: $(19 \times 16 = 304)$.

* Thirteen out of the twenty-nine surats consist of the introductory letter **L**. I counted all the **L' S** found throughout the thirteen Surats and there is no surprise the sum is **11,780**, a product of $(19 \times 620 = 11,780)$.

* Seventeen out of the twenty-nine surats consist of the introductory letter **M**. I counted **8,683** of the letter **M** in the seventeen surats. $(19 \times 457 = 8,683)$.

* One out of the twenty-nine surats consists of the introductory letter **N**.
I counted **133** letters of **N** in this Chapter. (**19 x 7 = 133**).

* Two out of twenty-nine surats consist of the introductory letter **Q**.
The total sum of **Q** in these two chapters equals **114**, which is a product
of **19 x 6**. I found this amazing, since **Q** is the first letter in the word
Qur'an, and **114** is the number of chapters in the Holy **Qur'an**.

* Six out of twenty-nine surats consist of the Introductory letter **R**. The
letter **R** is found **1,235** times. (**19 x 65 = 1,235**).

* Nine out of twenty-nine surats consists of the Introductory Letter
conjunction **S T'**. The sum of the amount of times the letter **S** and the
letter **T'** are found in the nine surats is **494**.

Multiples of **Nineteen**: (**19 x 26 = 494**).

* Three out of twenty-nine surats consist of the Introductory letters **S'**. I
counted **152** **S'** in the three chapters. Multiples of **Nineteen**: (**19 x 8 = 152**).
The mystery of the introductory letters in the holy **Qur'an** for **fourteen**
Century or 1,400 years ago, has been solved by the miraculous Number
Nineteen.

God's miracles are infinite, the miraculous number **Nineteen** is the
foundation of **Circle of God**.

Chapter 9

The Miracle of H' and M

Two introductory letters, **H'** and **M**, in Arabic, (phonetic translation would be **Ha'** and **Meem**) in seven surats is significant. The sum of these two letters **H'** and **M** found in seven chapters is equal to **2166** letters. **2166** is a product of **19** by **114** ($19 \times 114 = 2166$).

Nineteen is a miraculous number and **114** are the number of chapters in the **Holy Qur'an**,. The sum of the two introductory letters **H'** and **M** is **2166**. What I assert that there is a clear correlation between the numbers **19** and **114** and the letters **H'** and **M**. **Nineteen** is a miracle of **God**. **114** are the number of chapters in the book of **God**, and **H'** and **M** refer to names of **God**: **H** stands for **Hameed** and **M** stands for **Majeed**. **Hameed** means **God** is the most praised and **Majeed** means **God** is the most glorified. It is documented that the Prophet once said in his prayers:

H'M ,H'M ,H'M ,H'M ,H'M ,H'M ,H'M

Translation “**H'a Meem, H'a Meem, H'a Meem, H'a Meem, H'a Meem, H'a Meem, H'a Meem**. This prayer represented the Prophets awareness of miracle of **Nineteen**. He repeated the letters seven times with intention and reason, the prophet's repetition of **H'M** seven times

represents the seven chapters where the letters **H' M** are present.

Furthermore, the number of times the letter **H'** and the letter **M** are found leads to the number of times the letters appear, of which is a product of **19**.

The introductory letters in Seven Surats equal to:----- 304 + 1862 = 2166

The miracle of Nineteen is a multiple of Nineteen of the three Sums in this chart.

Showing math work: $(19 \times 16) = 304$

$(19 \times 98) = 1862$

$(19 \times 114) = 2166$

Number **19** is the miraculous number, and **114** is the number of Surats or chapters of the entire Holy Qur'an, and the number **2166** is the some of two introductory letters **H'** & **M** in the seven introductory Chapters.

Chapter 10

The miracle of the letter S' or Sawd

Surat Seven, Al- AA'-RAF translates to "the Heights". This Surat has four introductory letters: A L M S'. Surat 19, MARIAM (Mother of Jesus), has five introductory letters, K H Y A' S'. Surat S' or Sawd has one introductory letter, which is S' or Sawd. The letter S' in these three surats appears 152 times. 152 is a product of 19 by 8; (19 x 8 = 152).

In Chapter AL-AA'-RAF of the Holy Qur'an, verse 69 says, "And gave you growth of stature" - in Arabic it is written like this:

وزادكم في الخلق بصطة

The word, "Growth" in Arabic must be written with an Arabic letter S (Seen) , because the correct spelling of the word growth in Arabic is with S sound. Contrary to the spelling rule, the revelation of Surat seven verse 69 of the holy Qur'an, the word growth was spelled with the letter sawd (S'), and no one has changed the spelling since it was revealed.

When Angel Gabriel delivered the verse to the Prophet Muhammad, he said to tell the writers of the revelation to spell this Arabic word that translates to "Growth" with the sawd letter instead of the (seen) letter. Since then, no one dared to change it. The deep sounding Arabic letter S' (sawd) is found 152 times the letter Sawd in

the three Chapters AL-aa'raf, Mariam, and Sawd, . However, since God spelled this word with an S ' (sawd) sound, then the number of times is found is: 152 times, which is a product of 19 by 8; ($19 \times 8 = 152$). This is one of the many reasons why the Holy Qur'an is the same as when it was revealed to the Holy Prophet Muhammad. Nothing has ever been added, deleted, or changed in the spelling or wording. Surat HUD, Chapter 11, verse 1, tells us what the Almighty God said:

“A book has fixed verses that were orchestrated by God, the most knowledgeable, the all knowing”. *

This chart helps you to find the letter Sawd (S') in three Surats: First Surat is AL-aa'raf Surat No. 7; the introductory letters are (A L M S'). Second Surat is Surat Mariam No.19; the introductory letters are (Q H Y A' S'). Third Surat is Surat Sawd (S') No. 38, and the introductory letter is (S') or Sawd.

Chapter 11

The miracle of the letter Q (quaf)

In Surat Quaf, (Surat 50), the first verse is the introductory letter Q or Quaf, and in Surat Al-Showra, (Surat 42), has the first verse the introductory letters H'MA'SQ. In both chapters the first verse consists of Introductory letters, and Q is the common letter of the two.

The letter Quaf is extremely significant throughout these two chapters. The letter Q or Quaf is repeated 57 times in Surat Quaf, which is a product of 19 times 3. Also, Surat AL-Showra (surat 42) has the introductory letters H'MA'SQ; the letter Quaf is repeated in this surat 57 times. Interestingly enough, the latter surat is longer than the former by one and a-half times. Continuing the analysis, Add the 57 with 57 and its sum is 114; and 114 is the number of chapters found in the Holy Qur'an. The letter Quaf evidently has significant meaning in the holy Qur'an. Nineteen, as you see throughout my research, is purposely set and organized by the almighty GOD. Also the letter Quaf signifies the holy book of God, the Qur'an.

Chapter 12

The miracle of the letter Noon (N)

Surat Al-Qalam translates to (the pen); and was the second revelation to the holy prophet Muhammad, and the 68th chapter in the holy Qur'an. The letter Noon (N) is the Introductory Letter and the first verse in this Surat. The letter Noon (N) appears 133 times in the entire chapter; 133 is a multiple of Nineteen or product of 19 by 7 = 133.

Chapter 13

Introductory letters combination

There are a total of seventy-eight Introductory Letter combinations (using the fourteen letters in chapter 8 and chart 8), throughout the holy Qur'an. If one was to make a word out of these letters the simplest word would be **KN** translated to the English verb "BE". This is a fascinating command that God often states in the Holy Qur'an. Subtract these two letters from the total of the 78 Introductory Letter Combinations and the result is a total of **seventy-six** Introductory Letter Combinations. This is due to the fact that the letters **KN** are Introductory Letters that each stands alone. Hence, take away these two letters and the total Introductory Letter combinations would be seventy-six, a product of **19 times 4**.

For the sake of simplicity and visual learning, I have plotted out a chart that demonstrates the Introductory Letter Combinations and also accounts for the sum of each letter in each chapter where an Introductory Letter, first begins the chapter.

The mystery of the Introductory letters of the twenty- nine Surats in the holy Qur'an is solved by the miraculous Nineteen and Circle of God.

The total letters of the introductory letters in the Twenty Nine Surats is 41819. Miraculously this number "41819" is a multiple of Nineteen. Showing the math work: $19 \times 22 = 41819$.

God is Great! These miracles never fade away by time, they are timeless for ever. After all these clear miracles to me that, I am certain with my intellect and my heart, that I know all these miracles is the work of GOD.

Chapter 14

The Nineteenth Movement: The Circle of God.

GOD is ONE

The miraculous number Nineteen is evidence of the Almighty God's existence in the universe and everywhere - especially in our hearts and minds. All the products of Nineteen derived from Nineteen, and Nineteen derived from one (1). Example: take number 19, then add, $(1+9=10)$, then add $(1+0=1)$, always you go back to One. God is One. In the following chart you'll find the multiples of the miraculous Nineteen (19). Each of these numbers is a miracle. When you add the digits of Number Nineteen or any of the multiples of number Nineteen, then you'll find the sum is One.

Chart # 15

$19 \times 1 = 19$ than, add $1 + 9 = 10$ than, add $1 + 0 = 1$ God is One.

$19 \times 10 = 190$ than add $1 + 9 + 0 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 19 = 361$ than add $3 + 6 + 1 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 28 = 532$ than add $5 + 3 + 2 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 37 = 703$ than add $7 + 0 + 3 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 46 = 874$ than add $8 + 7 + 4 = 19$ than add $1 + 9 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 55 = 1045$ than add $1 + 0 + 4 + 5 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 64 = 1216$ than add $1 + 2 + 1 + 6 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 73 = 1387$ than add $1 + 3 + 8 + 7 = 19$ than add $1 + 9 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 91 = 1729$ than add $1 + 7 + 2 + 9 = 19$ than add $1 + 9 = 10$ than add $1 + 0 = 1$, God is One.

$19 \times 100 = 1900$ than add $1 + 9 + 0 + 0 = 10$ than add $1 + 0 = 1$, God is One.

never ends.

The miraculous number Nineteen is one of the most logical evidence of the almighty God's existence in the universe and in everywhere, especially in our hearts and minds. All the multiples of

Nineteen are derived from Nineteen, and Nineteen is derived from One (1). The almighty God is One, and everything is derived from Him and is created by Him. The number nineteen is conveyed in His creations, such as the creation of humanity.

The almighty God created Adam and Eve in paradise. The almighty God told us the story of Adam and Eve in paradise: “And God taught Adam and Eve the names and the nature of all things; than he placed them before the Angels, and Said: Tell me the names of these (referring to the future messengers of God) if ye are right! They Said: Glory to thee! We have none, save what thou hast taught us; in truth it is thou who art perfect in knowledge and wisdom” 2:31, 32

The story goes on in a dialogue, and God said: “Oh Adam! Tell them of their names! When Adam had told them of their names! The almighty God Said: “did I not tell you that I know the secrets of havens and earth, and I know what ye reveal and what conceal!” 2:33

The dialogue continues. “And Behold! We said to the angels: Bow down to Adam; and they bowed down; not so Iblis! He refused and was haughty! He was of those who reject faith” 2:34 The almighty God said: “Dwell thou and your wife in the garden; and eat of the bountiful things therein as ye will; but approach not this tree, or ye run into harm and

transgression.” 22:35

Then, “did Satan make them slip from the garden, and get them out of the state in which they had. God said: Get ye down, all ye with enmity between yourselves; on earth will be your dwelling place. And your means of livelihood for a time.” 2:36

“Then learned Adam from his lord words of inspiration, and his lord turned towards him; for God is oft-returning, most merciful.” 22:37

Continuing on God Said: “Get ye down all from paradise; and if, as is sure, there comes to you guidance from Me, whosoever follows my guidance, on them shall be no fear, nor shall they grieve.” 22:38

The almighty God created Adam and Eve in paradise, not on earth. However the holy Qur’an states this fact: “Behold, thy Lord said to the Angels: I will create a vicegerent on earth! The Angels replied: Wilt thou place therein one who will make mischief therein and shed blood? Whilst we do celebrate thy praises and glorify thy holy name? The almighty God said: “I knew what ye know not!” 2:30.

This verse indicates that God created the Pre-Adamites on earth before our first parents, Adam and Eve, whom were created in paradise! Since 1,400 years ago, the almighty God tells us in chapter 2, verse 30; that He created the pre-Adamites a long time before the creation of Adam and

Eve. Remains of Pre-Adamite existence such as skeletons and fossils were discovered in the *Nineteenth* century to prove that the Pre-Adamites were earth dwellers millions of years ago. Therefore science supports this information from the holy Qur'an. Here the number nineteen is important because humanity discovered scientific evidence of Pre-adamite existence in the nineteenth century.

The miracle of the Number Nineteen and the Circle of God

The miracle of the number Nineteen is present. This number brings importance and structure to human existence through a web that connects us with the universe. The miracle of Nineteen is not decoded for amusement, but for the greater love, a love that unconditionally brings a family together. It is a love that will unite a human kind. The number Nineteen binds the three religions of Abraham with a circle that encompasses peace, unity and love. I have decoded a formula that peacefully unites Islam, Christianity and Judaism that I have named it, *The Circle of God*.

Circle of God is brought together effortlessly by the number Nineteen that is found throughout the Holy Qur'an. The numerical building blocks to The Circle of God are the energetic numbers 1, 2, 3, 4,

5, 6, 7, and 12. The number Nineteen is the big picture, while 1 symbolizes the One God, One Love. All of these miracles are the work of God. God wants to remind us that He is the Almighty, our Creator, who unconditionally loves us and shows us guidance. God is communicating to us. Every human being can understand the language of numbers. The language of numbers is the efficient and lucrative tool to human progress. Technology needs numbers. The dawn of technology started in the Nineteenth Century. The gift of technology was given to us by God. The first five Ayats, or verses, revealed to the Holy Prophet Muhammad emphasize the importance of learning. It also reminds us that all you learn is from God. The numbers that are found to have significant strength throughout the Holy Qur'an, according to the number 19 miracles, are directly correspondent with the Circle of God.

The Holly Qur'an is full of miracles of numbers. I'll list all the numbers were written in the Holy Qur'an: 1 + 2 + 3 + 4 + 5 + 6 + 7 + 8 + 9 + 10 + 11 + 12 + 19 + 20 + 30 + 40 + 50 + 60 + 70 + 80 + 99 + 100 + 200 + 300 + 1,000 + 2,000 + 3,000 + 5'000 + 50,000 + 100,000 = The sum is 162,146; Miraculously, This number is a multiple of Nineteen. Showing the math work: $19 \times 8,534 = 162,146$. The number of verses in the holy Qur'an is 6,346. This number is a

multiple of Nineteen. Showing the Math work: $19 \times 334 = 6,346$. By counting all the verses in the Holy Qur'an of those are numbered, and those are not numbered. The holy Qur'an consists of 330,733 letters. This number is a multiple of Nineteen. Showing the math work; $19 \times 17,407 = 330,733$. Remember! God's miracles are infinite. Look at the miracle of circle of God. Showing you three circles, and each in a different position. With the will of God, the secret of the number Nineteen is solved, and the results of this miracle of Nineteen, is Peace and Tranquility to all religions of the Al-Mighty God, in the Circle of God, 19th Century & Beyond.

Fig.1

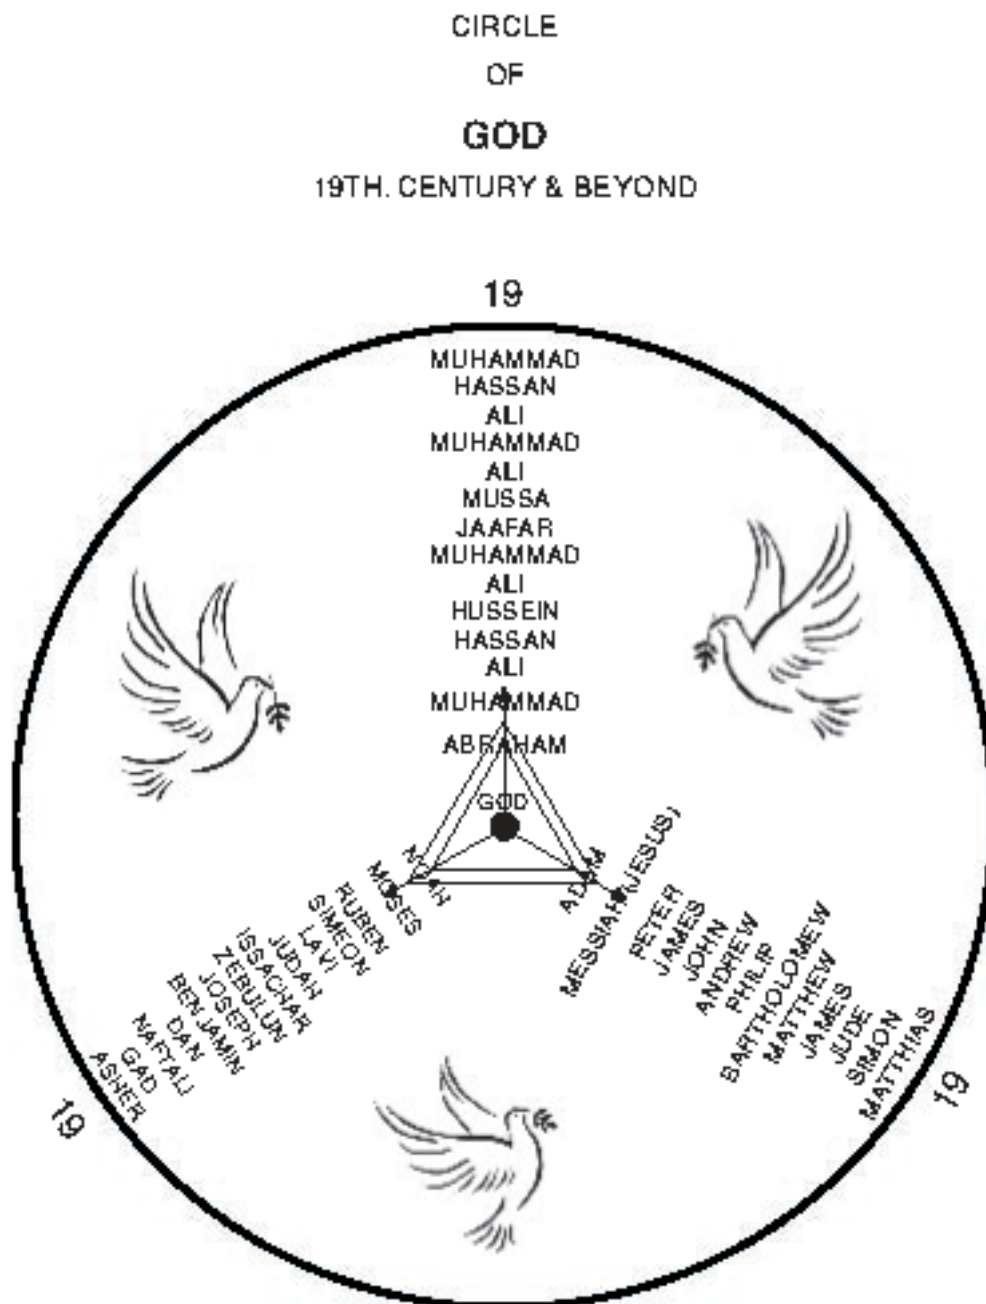

Fig.2

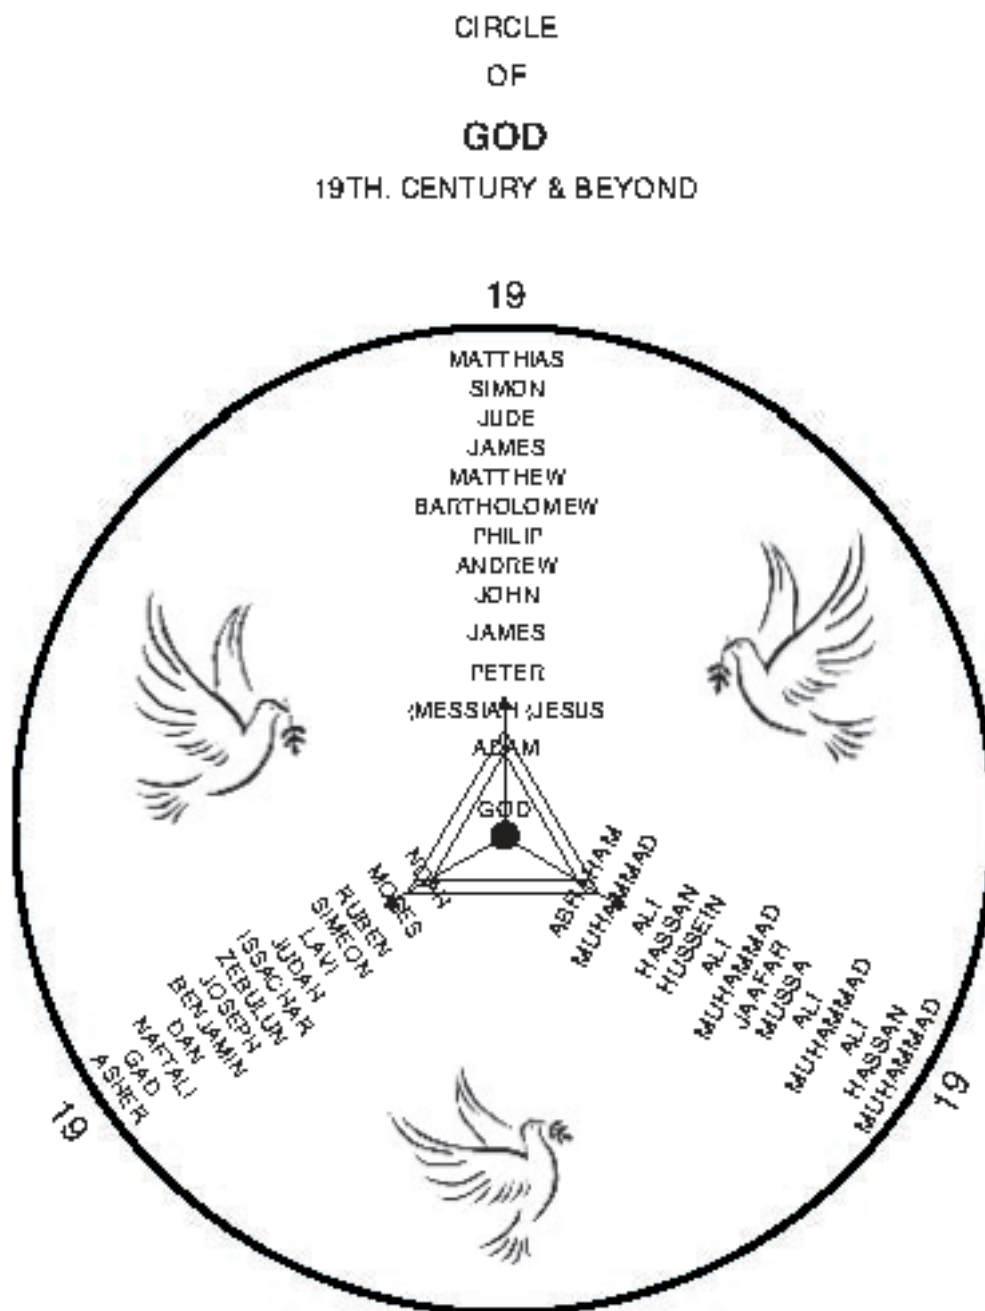

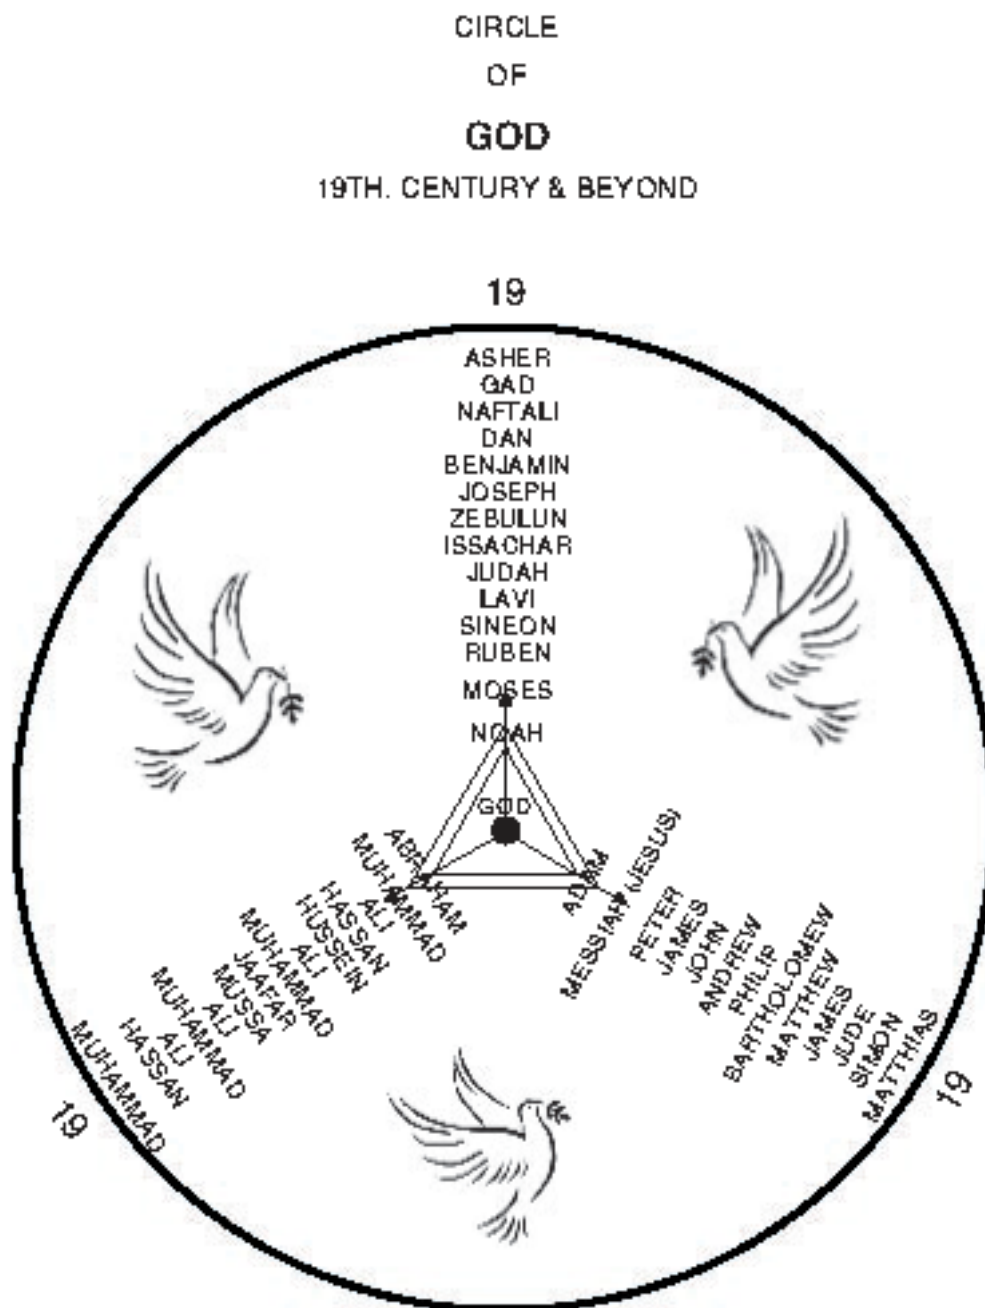

Fig.3

The above diagrams can be explained as follows:

Above all, God Almighty is number 1. God created Adam and Eve from one soul, and made Adam his representative on Earth. That makes Adam and Eve number 2. The prophets are in this order: Noah is number 3, Abraham is number 4, Moses is number 5, Jesus is number 6, and Muhammad is number 7. The center of the circle is its origin at the middle of the Universe. This is the source of all power. As you see in the circle there is only one origin, therefore, there is only One God in the universe. From God emanates everything that is good. God is in everything and everywhere. God is the creator of our first parents in this world. He called them Adam and Eve. They were from one spirit, the spirit of God. GOD is the creator of the Universe and He is our creator, and He is number One (1)

Adam became God's representative on earth. He is number Two (2).

Noah is God's prophet and messenger. He is number three (3).

Abraham is God's prophet and messenger. He is number four (4).

Moses is God's prophet and messenger. He is number five (5).

Jesus God's prophet and messenger. He is number six (6).

Muhammad is God's last prophet and messenger. He is number seven (7).

There are three (3) straight lines in the Circle of God. On each line there are twelve (12) saintly disciples.

The number seven (7) and the twelve (12) disciples of the Israelites on the first line are equal to Nineteen (19). The miraculous Number.

The number seven (7) and the twelve (12) disciples of the Christians on the second line are also equal to Nineteen (19).

Likewise, the number seven (7) and the twelve (12) disciples, or Imams, of the Muslims on the third line are equal to nineteen (19).

The Circle of God is simple. It can be understood by everyone. It is logical, accepted by the heart and mind. It is perfect, and familiar. All the names in the circle are well known to every one. When viewing Fig. (1, 2, 3), once can see the inner triangle symbolizes God as the creator of the first base. The vertices are: Adam, Noah, and Abraham. God created and built a higher level and its vertices are: Moses, Jesus, and Muhammad. The vertices of these two levels are universally known as messengers of God. There are three straight lines in the Circle of God and there are twelve (12) saintly disciples on each straight line. The first twelve disciples are the Israelites. The second twelve are Jesus' disciples. The third twelve are Muhammad's disciples or Imams.

Chapter 15

Important Observations:

Adam and Jesus are comparable in the fact that each was created uniquely: Adam with no human father or mother and Jesus with no human father.

Noah and Moses are comparable in the fact that each was involved in a miracle of the water: Noah with the Great flood and Moses by parting the Red sea.

Abraham and Mohammad are comparable in the fact that both of them were seeking God with great love and admiration. God appointed both as a prophet and messenger.

The light, the love, and the knowledge of God went into three (3) straight lines. God blessed his Circle with his light, love, and knowledge, and blessed those that believe in Circle of God. Believers in the Circle of God are the companions of the righteous. Life comes from living, and the origin of life is from the creator, the almighty, the eternal God. I assert that the miracles of Nineteen and The Circle of God could be the foundation to finding genuine peace between the three monotheistic religions: Judaism, Christianity, and Islam. Anyone who believes in God and the hereafter, and lives a righteous life, will find peace with God. Nineteen is the common denominator of Circle of God and the book of

revelations. It is proven mathematically.

The twelve head of tribes of the Israelites disciples and their names are on a straight line as follow: Ruben, Simeon, Lavi, Judah, Issachar, Zebulun, Joseph, Benjamin, Dan, Naftali, Gad, Asher.

The twelve disciples of the Christian religion named on a straight line are as follows: Peter, James, John, Andrew, Philip, Bartholomew, Matthew, Thomas, James, Jude, Simon, and Matthias.

The twelve disciples, or Imams, of the Muslim faith named on a straight line are as follows: Ali, Hassan, Husien, Ali, Muhammad, Jaafar, Mussa, Ali, Muhammad, Ali, Hassan, and Muhammad.

Throughout my research in Arabic when I was counting the letters in each column of the straight lines, I found three remarkable miracles.

Miracle of the twelve Imams on the Muslims straight line is as follow:

Ali + Hsn + Hsin (sum of 10 letters) + A' + M + J + M + A' + M + A' + H + M (first letter of each name of the rest of the Imams) = 19 letters.

3 + 3 + 4 ----- + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1 = 19 letters.

The miracle is shown in the Arabic language as:

19 = علي حسن حسين عم جمع مع حم

1- I will give you the meaning of the Arabic phrase above. It is composed from the names of the first three Imams, Ali, Hsn, Hsyn and the first letter from each name of the following nine Imams. The sum of

these letters is Nineteen. The meaning of the phrase is:

“Ali, Hassan, Hussine, with the rest of the group are with God.”

2- I also found a miraculous Arabic phrase in the same way, from the Nineteen letters of the disciples of Jesus. The meaning of the phrase is:

“Is not He who saved the body!”

3- In addition, I searched the line of the Israelites, and found a miraculous phrase in Arabic, meaning: “whoever crosses the mountain is safe.”

Dear reader and researcher, look at circle of God and examine the names in the circle. The name of God is centered and there is a specific reason for that. We believe the almighty God created the universe. When the almighty God created the universe, logic tells us that He must be in the middle of the universe, with everything emanating from him. When He is in the middle of the universe and everything emanates from Him, then He is in complete control of everything, no matter how big or small. Now I can say, the almighty God was, is and always will be the creator of the universe. The almighty God encompasses everything.

The Circle of God is reduced in shape, so our eyes can see the miracles of the almighty God. The Circle of God is complete and perfect. Once again, I assert that for the first time in the history of mankind, we see and witness the perfection of the Circle of God. Through my research, I

believe that when a person looks and studies the Circle of God, if that person believes in the almighty God without any hesitation in his heart or his mind, then they will believe in God's miracle. The holy book, the Qur'an, supports the miraculous Nineteen and circle of God, by saying: **"Over it are Nineteen" . . . In order that the people of the book may arrive at certainty, no doubts may be left for the people of the book and the believers . . ."** Who are the people of the book? The people of the book are the followers of the Prophet Moses and the followers of Jesus. The believers are the followers of the prophet Muhammad.

Circle of God opens a new door for people of all nations to understand God's everlasting miracles. Look at the diagram of circle of God and observe that almighty God the creator of the universe is at the center of the circle, as everything emanates from Him.

God the almighty, He is number One. He created Adam and Eve from one soul, and made Adam His representative on earth. So Adam is number two. The prophet Noah is number three. The prophet Abraham is number four. The prophet Moses is number five. The prophet Jesus is number six. The prophet Muhammad is number seven.

7 + 12 (head of Tribes) = 19 Israelites straight line.

7 + 12 (Disciples) = 19 Christians straight line.

7 + 12 (Imams) = 19 Muslims straight line.

The whole purpose of the miracle of Nineteen is to enter the *Circle of God* and to live in the peace of God and our brothers and sisters from all over the world. The Circle of God unites people together. It eliminates hate, through acceptance, love, and working together in harmony.

God created us to be unique and He loves us more than we love our children. God expects us to love one another and care for each other. Through His messengers, prophets and books, He has told us that the greatest enemy to all mankind is Satan. Satan was an angel who became very arrogant and disobedient. He drifted away from God and began using his power to lure the children of Adam and Eve to disobey God and to accumulate sins in this worldly life. Any negative thoughts that may come to your mind are caused by the power of your worst enemy and the enemy of God, "Satan". Satan is an all influential power to all mankind. He influenced our first father and mother to disobey God, and they did, despite the fact that they knew their creator and his power. *The Circle of God* and the miraculous Nineteen are the greatest miracles for the Nineteenth Century and beyond. Many people of the various religions left their own places of worship because their faith and their logic were in conflict. Religions of today have changed their focus and have become too materialistic. They have lost their spirituality to the dollar.

Chapter 16
Ahlul-Bite Al-Nabee Muhammad
(Household of the Prophet Muhammad)
&
Ahlul-Kissaa'
(Household members under one blanket)

The Prophet **Muhammad (pbwh)** taught the Muslims to pray five (5) times a day, and in their prayers to say, **“Oh Mighty God, Have Peace on Muhammad, and The Members of Muhammad’s family.**

”اللهم صلي على محمد وال محمد“

The prophet Muhammad told the Muslims that he would be followed by twelve Imams would be the continuation of the house of Muhammad’s family. (The protectors of the religion). The Prophet Muhammad named the twelve Imams during his life time and the Prophet’s companions told many Muslims about them. I read an article about a book of Hadiths or (related about the Prophet) written by Hashim Al-Bahrani, a well known book by the name Ghayat Al-Maram (Reach the Truth). In this book, there are 520 Hadiths, or related sayings, in which the Prophet Muhammad named the twelve Imams in his life-time. In the Circle of

God you see the names of the twelve Imams on a straight line after the Prophet Muhammad.

This is a list of the Twelve Imams:

- 1- Imam ALI**, son of Abi-Talib, son of Abdul-Mutalib. Born in Kaba (house of God). 30 years after the miracle of the elephant.
- 2- Imam Hassan**, son of Ali, son of Abi-Talib. Born in Madina year 3 Hijra.
- 3- Imam Husine**, son of Ali, son of Abi-Talib. Born in Madina year 4 Hijra.
- 4- Imam Ali (Zinul-Abidine)**, son of Husine, son Ali. Born in Madina year 38 Hijra.
- 5- Imam Muhammad (Al-Baqir)**, son of Ali, son of Husine. Born in Madina year 57 Hijra.
- 6- Imam Ja'far (Al-Sadiq)**, son of Muhammad, son of Ali. Born in Madina year 83 Hijra.
- 7- Imam Moussa (Al-Kazim)**, son of Ja'far, son of Muhammad. Born in Al-Abwa'a between Mecca and Madina. year 128 Hijra.
- 8- Imam Ali (Al-Rouda)**, son of Moussa, son of Ja'far. Born in Madina year 153 Hijra.
- 9- Imam Muhammad (Al-Jawad)**, son of Ali, son of Moussa. Born in

Madina year 195 Hijra.

10- Imam Ali (Al-Hadi), son of Muhammad, son of Ali. Born in Madina year 212 Hijra.

11- Imam Hassan (Al-A'skari), son of Ali, son of Muhammad. Born in Madina year 232 Hijra.

12- Imam Muhammad (Al-Mahdi), son of Hassan, son of Ali. Born in Samara' year 255 Hijra.

The Holy Qur'an states in **Chapter 33, "The Parties", verse 33**, that the prophet's family members and progeny, the twelve Imams, are in fact, infallible and pure from sin:

"Lo! What God's attention is to remove the stain far from you,

Oh! Members of the house hold (of the prophet Muhammad) and to cleanse you with a thorough cleansing." KDYJT/ Khadijat is the wife of the Prophet **Muhammad**. **FATMT/Fatimat** is the daughter of the prophet **Muhammad**. **Imam ALI** is the husband of **LADY FATMT** and son-in-law of the prophet **Muhammad**. **Imam HSN/Hassan & Imam Hsyn/Hussine** are the sons of **Imam ALI** and **Lady FATMT** and they are the grandsons of the prophet **Muhammad**. These five people comprise the household of the Prophet Muhammad. The names of the males plus the revelation stated above are equal to fifty-seven letters,

which is product of Nineteen. The names of the females plus the revelation stated above are equal to fifty-seven letters, as well, which is product of Nineteen, $(57 + 57) = 114$, and also equal to the entire chapters of the Holy Qur'an which is **114**. Take this verse plus the names of **KDYJT** and **FATMT** in Arabic and count the letters: When you count the letters of the above verse in the Arabic language and add the number of letters of the female names in the household of Muhammad, it is equal to fifty-seven letters, which is product of Nineteen; When you count the letters of the three male names in the household of the holy Prophet Muhammad and add the previous verse like this: The sum of letters in this verse plus **ALI, HSN, HSIN** is equal to 57 letters, which is a product of Nineteen. $19 \times 3 = 57$. When we add the number of letters of the female names, fifty-seven to the numbers of letters of the male names, also fifty-seven, and the answer is $57 + 57 = 114$. The number **114** is the number of the entire chapters in the Holy Qur'an. The holy Prophet Muhammad said: "I am leaving with you the most precious two: The Holy Qur'an, book of God, and the members of my family, with both of them you will be on the right path". The twelve Imam's knowledge is equivalent to the Holy Qur'an, book of God. There is a clear connection between the members of the household of the Prophet Muhammad and the Holy Qur'an. God wants these twelve Imams to guard and sacrifice,

and to maintain the continuation of His message, so that it might reach people in every corner of the planet earth. The Prophet Muhammad, The Qur'an and the 12 Imams are miracles of God to all mankind. Let us consider this miracle: The first three Imams are: ALI, HSN, and HSYN, the sum of letters of these three names is ten letters. Take the first letter of each name of the nine Imams like this: A' M J M A' M A' H M. In Arabic like this:

علي حسن حسين = 10

ع م ج م ع م ع ح م = 9

علي حسن حسين ع م ج م ع ح م = 19

In English it is **ALI H'SN H'SYN A'M JMA' MA' H'M**. The translation is “**ALI, HASSAN, HUSSINE**, the group is completed with **H' M** (or the almighty **God**)”. The sum of the letters is Nineteen. These are miracles of God. Above, the straight line and the names on the straight line in the Circle of God are the continuation of the Islamic religion. This the Islamic straight line, contains the first three Imams **ALI, H'SN, H'SYN** equal to **Ten (10) letters**, plus **Nine (9) letters** on the straight line. Each letter represents the name of each Imam in order.

*Miracle of Nineteen shows the authenticity of this Haddith or related saying goes back to 1,400 years ago.

Ahlul-Kissaa'

(house hold of the Prophet Muhammad under the blanket)

One day the holy Prophet Muhammad came to visit his daughter Lady Fatima, and that was a some times after the Great Khadija His beloved wife passed away and went to paradise, The Prophet greeted His daughter by saying: "My beloved daughter, I feel like I need to take a rest under your Yemeni Blanket." When the prophet was under the blanket his grandson Hassan asked his mother, Lady Fatima, who is under the blanket? She answered, "Your Grandfather, the Prophet." Hassan went under the blanket to lay by his grandfather. A minute later, Hussein the little brother entered the house and he also asked his mother Lady Fatima, who is sleeping there under the cover? Fatima answered, "Your grandfather the prophet and your brother, Hassan". Hussein went under the cover to lay by his grandfather. A minute later, Imam Ali came and asked his wife Lady Fatima, who is sleeping under the cover? Lady Fatima answered: The Holy prophet , Hassan and Hussein. Imam Ali went under the blanket. Lady Fatima looked at the seen with a great love and went under the blanket too. At that moment the Prophet Muhammad heard the Angles and the great angle Gabriel greeting all of them and told The Holy Prophet that he brought a message from The Al-Mighty God to

them, and the message is: "I have created the Havens and Earth for the purpose of Peace, and you people under this cover will be the symbol of peace for ever!" The sum of the letters of the names of Ahlul-Kesaa is equal to Nineteen.

MHMD + FATMT + ALI + HSN + HSYN = 19 LETTERS. This is a great miracle.

Chapter 17

Inside the diagram of the Circle of God

The vertices of base one are: **ADAM, NOAH and ABRAHAM.**

GOD created and built a higher base, which is base two:

MOSES - JESUS - MUHAMMAD.

The vertices of these two bases are universally known as messengers of **GOD.**

1-ADAM and MESSIAH (JESUS) are comparable in the fact that each was created uniquely: **ADAM** with no human father or mother and **JESUS** with no human father.

2-NOAH and MOSES are comparable in the fact that each was involved in a miracle of the waters: **NOAH** with flood and **MOSES** with parting of the sea.

3-ABRAHAM and MUHAMMAD are comparable in the fact that each was seeking **GOD** with great love and admiration. **GOD** appointed each as a messenger.

GOD sent to each {**MOSES, MESSIAH (JESUS) AND MUHAMMAD**} twelve saintly disciples to ensure the universality of his message throughout time. **GOD** loves all mankind.

GOD is number **ONE**. **He** created the first human being (the homo sapiens).

ADAM is number **TWO**. **He** and **EVE** were the first homo sapiens.

NOAH is number **THREE**. He is a messenger of **GOD**.

ABRAHAM is number **FOUR**. He is a messenger of **GOD**.

MOSES is number **FIVE**. He is a messenger of **GOD**.

JESUS is number **SIX**. He is a messenger of **GOD**.

MUHAMMAD is number **SEVEN**. He is a messenger of **GOD**.

The Almighty God and his messengers are **Seven**, and the **Twelve** saintly disciples,

7 + 12 (disciples of the ISRAELITES) = 19

7 + 12 (disciples of the CHRISTIANS) = 19

7 + 12 (disciples of the MUSLIMS) = 19

Circle of God is perfect in every way. When you analyze the Circle of God, you'll know it is for a genuine world peace and tranquility for all people on earth. I believe in the Circle of God because, the almighty God wants the miracle of Nineteen to come to existence in the Nineteen Century and beyond. This is the first discovery of Circle of GOD since the existence of religions. The miracle of Nineteen works perfectly in Circle of God, like a glove to a hand. The Circle represent the Universe,

and the middle of the Circle is the Al-Mighty the origin of all powers, and the creator of the universe. From Him emanates everything. When you look at the Circle you see three straight lines rise from the Origin. The three lines consist of the line of the Israelites, the Christians, and the Muslims. These three straight lines are equal in lengths and two triangles as bases for all human, and The Al-Mighty God as the origin and the originator of the Universe.

The Circle of God is the symbol of world Peace. The communications between people became clear, fast, and face to face. Technology helped people to see and communicate with each other faster than ever around the world. Technology is a gift from the Al-Mighty God. This gift of God enlightened the mind of individuals around the world in the beginning of the Nineteen Century and Beyond. The Number Nineteen is God's Number.

Chapter 18

The miracles of the two indexes

The holy Qur'an has two indexes. The first index is listed as the revelations received by the holy prophet Muhammad (pbwh) from the Al-Mighty GOD, and the second index is the one we use daily all over the world, and was put together by Imam ALI bin ABI T'ALIB, the first Imam of the 12 Imams, and his companions. I'll list the index of revelations, then our daily index which we use all over the world, **By Imam Ali Ben Abi Talib.**

There is an accurate and reliable Hadith documented by Jalal-ud-dean Al-Suyout'ee. In his book, he writes, "The truth is in the knowledge of the Holy Qur'an"; in page 59. This information was written in the news letter of Al-Azhar (Egypt) in 1318 Hijra . The Al-Azhar news letter quotes Jalal-ud-dean Al-Suyout'ee to assert, "Imam Ali Ben Abi Talib did not leave his house for a long time; People asked him, what makes you not to leave your house? Imam Ali answered:" I saw that a verse was added toward the end of Surat Baraat, the Nineth Surat, and I deleted it. I promised myself not to leave my house until I have completed the Holy Qur'an and put it in one book." Also Al-bukhari related: "The Holy Qur'an was put together by Imam Ali Ben Abi Talib and he had helpers and witnesses, witch they had high respect from the Muslim community, and they are: Zide Ben Thabit, Uby Ben Ka'ab, Abdullah Ben Al-Zuhire, saad Ben Al A'ass, and Abdull-Rahman Ben Al-h'arith Ben Hisham." The Holy Qur'an was memorized by many devoted Muslims and by their leader Imam Ali Ben Abi Talib and It was

protected by the Almighty God. This is the will of God. **“We have revealed the Holy Qur’an and we are protecting it.”**Surat: 15 – verse9.

The number of all the verses in the Holy Qur’an plus the One Hundred Twelve (112) Basmalats or Titles of the Surats or chapters, which are not numbered, all together, the Sum is 6346;

Miraculously this number is a multiple of Nineteen. Showing the math work: $19 \times 334 = 6346$.

Also if you take the sum of the Holy Qur’an verses which is 6346, then add $6 + 3 + 4 + 6 = 19$,

The sum is Nineteen. For All these intelligent work, there is only one great designer, The Almighty God.

= 789

The number 399 is a multiple of Nineteen (19); Math work: $19 \times 21 = 399$

The number 789 is a product of Nineteen (19). Mathematically: $(19 \times 42 = 789)$.

I looked at both Indexes and I found the common numbers are: 1, 19 , 38, 57, 76, 95, and 114.

Surat Al-Fatiha is the Muslims prayers, at least a Muslim prays five times a day. It is the first chapter in the holy Qur'an. Also it is the fifth revelations to the holy Prophet Muhammad. This is a perfect prayer from God to his believers. We pray to become closer to God. There is a correlation between **Surat Al-Fatiha and Surat Al-A'alaq.**

Chapter # 1 (Al-Fatiha); the opening Chapter in the holy Qur'an after was preordained 1,400 years ago by Imam Ali and his helpers. This index never changed again.

1 – “ In the Name of God, The Beneficent, the Merciful*”

2- “ Praise be to God, the cherisher and sustainer of the worlds*”

3- “ The Beneficent, The Merciful;*”

4- “ Master of the day of judgment;*”

5- “ Thee do we worship, and thine aid we seek;*”

6- “ Show us the straight path;*”

7- “ The path of those on whom,

Thou hast bestowed thy grace,

Not of those were cursed by thee,

Nor who go astray.*”

Surat Al-A'laq was the first revelation to holy Prophet Muhammad when He was 40 years of age. I'll list the first five (5) Ayats or verses were reveled to The Prophet.

“Surat Al-A'laq (Chapter of Hooks or chromosomes)”

- i. Read! In the name of thy Lord who created.**
- ii. Created man from hooks (chromosomes).**
- iii. Read! And thy Lord is most Bountiful.**
- iv. He who taught (the use of) the pen.**
- v. Taught man that which he knew not.**

In Surat Al-A'laq, The Al-Mighty God tells us how he created man, and what He expects from him. In Surat Al-Fatiha, the opening chapter in the holy Qur'an, The Almighty God teaches us how to pray to Him and how to ask favors from Him. Miraculously the Almighty God put in the mind of Imam Ali and his helpers to arrange the Holy Qur'an's index in order that what is good for us as humans, to come first. In both Surats are great messages to us. Therefore these chapters 1, 19, 38, 57, 76, 95, 114, are unique and are multiple of Nineteen, which is God's number.

Surat # 19 revelation is Al-Feel (the Elephant), and Surat Mariam is # 19 in the revised index by Imam Ali, 1,400 years ago as I explained before. Both Surats revealed to us about great miracles.

Surat Al-Feel (the Elephant), revealed as the Nineteenth Surat.

Surat Miriam (Mary) as the Nineteenth Surat in the Index of The Holy Qur'an.

Surat Al-Feel: (S:105)

“In the name of God the Beneficent the Merciful”

1- “Seest thou not, how your Lord dealt

With the companions of the Elephant?”

2- “Did he not, make their treacherous plan go away?”

3- “And he sent against them flights of Birds,”

4- “Striking them with stones of baked clay,”

5- “Then did he make them like an empty field,

Of stalks and straws (of which as been eaten up)”!

There are five ayats in Surat Al-Feel (the elephant). Five is a significant number. It is a prime number, as well as the number of Prophets in Circle of God. Their names are: Noah, Abraham, Moses, Jesus, and Muhammad. This Surat revealed to the Prophet Muhammad, that almighty GOD intervenes to protect his house of worship and to keep this story alive until the day of judgment.

When the Prophet Muhammad was born, a tyrant king by the name of Abraha, came to Mecca with a large army and many strong elephants. Abraha's intention was to destroy the Kaa'ba, built by Adam and Eve to

worship the one God. This tyrant King had one thing on his mind and that was to become richer. He wanted to destroy the Kaa'ba in Mecca and build a Kaa'ba in Yemen. He thought by doing this, people would come to Yemen for business and the King would become richer. Despite how strong the King and his army were, almighty God destroyed them by sending waves of birds to strike them with stones. That was the end of that tyrant king.

This Surat was the Nineteenth revelation to the Prophet Muhammad (pbwh). Nineteen is miraculous. This is the work of God. It is a clear sign to all mankind. God said in Surat Al-Muddather (74:31):

“We have fixed their number, only as a trial for the unbelievers; in order that the people of the book may arrive at certainty, and the believers may increase in faith”.

The miracles of the number nineteen and *The Circle of God* are visible and logical. They will remain here till the Day of Judgment. The language of numbers is universal. It is the only global language of the miracles of God; “Nineteen” is one of the greatest. Imam Ali Ben Abi Talib (pbwh) took upon himself a great responsibility by gathering the holy book of God, The holy Qur'an. He organized it and put an index to the holy Qur'an, which is still the same index today as 1,400 years ago,

and it will be till the Day of Judgment.

Surat Mariam 19:16-34: (Nineteen verses).

16- When she withdrew from her family to a place in the east*

17- She placed a screen (to screen herself) from them; then we sent to her our angel, and he appeared before her a man in all respects*

18- She said: "I seek refuge from thee to God most gracious: (come not here) if thou dost fear God."*

19- He said: "Nay, I am only a messenger from thy Lord, (to announce) to thee the gift of a holy son."

20- She said: "How shall I have a son, seeing that no man has touched, and I am not unchaste?"

21- He said: "So (it will be): Thy Lord said, that is easy for me: and (we wish) to appoint him as a sign unto men and mercy from us. It is a matter (so) decreed"

22- So she conceived him, and she retired with him to a remote place

23- And the pains of childbirth drove her to the trunk of a palm-tree: She cried (in her anguish): "Ah! Would that I had died before this! Would that I had been a thing forgotten and out of sight!"

24- But (a voice) cried to her from beneath the (palm tree): "Grieve not! For thy Lord hath provided a rivulet beneath thee"

25- And shake towards thyself the trunk of the palm tree: it will let fall fresh ripe dates upon thee

**26- So eat and drink and cool (thine) eye, and if thou dost see any man, say,
“I have vowed a fast to (God) most gracious, and this day will I enter into
no talk with any human being**

**At length she brought the (baby) to her people, carrying him (in her arms),
they said: “O Mary! Truly an amazing thing hast thou brought!”**

**28- O sister of Aaron! Thy father was not a man of evil, nor thy mother a
woman unchaste!”**

**29- But she pointed to the baby. They said: “How can we talk to one who is
a child in the cradle?”**

**30- He said (the baby spoke): “I am indeed a servant of God: God hath
given me revelation and made me a prophet”**

**31- And God hath made me blessed whosoever I be, and hath enjoined on
me prayer and charity as long as I live”**

**32- God hath made me kind to my mother, and not overbearing or
miserable.**

**33- So peace is on me the day I was born, and the day that I die and
the day that I shall be rise up to life (again)**

**34- Such (was) Jesus the Son of Mary: (it is) a statement of truth,
about which they (vainly) dispute.**

God’s miracles are done in a mysterious ways, such as you see in Surat
Miriam (Mary) and Surat Al-feel (the Elephant). Both surats are

referenced in both indexes; the first index as it was revealed, and the present one, which was put together by Imam Ali (pwh).

* Look at chapter # 38 in both Indexes of the Holy Qur'an.

The miracle of Surat S' (Sawd). The introductory letter of Surat S'awd is S'. The chapter number is 38. Surat (S') in the first index of revelation, and in the second index too. Number 38 is a multiple of Nineteen (19); ($19 \times 2 = 38$). Also the word S'aber, means patience.

*Look at chapter # 57 in both indexes: Surat LUQMAN and Surat Al-Hadeed. The Al-mighty God gave wisdom to the Prophet Luqman, and God enlightened the mind of man to discover the iron. Iron became the most precious element in man's history. By wisdom, Iron , and the miraculous number Nineteen put mankind in the right track of new discoveries in the Nineteen Century and Beyond into space. We are in the Space Age. Also number 57 is a multiple of Nineteen. ($19 \times 3 = 57$). Both Indexes were set by miracles.

* Look at Chapter # 76 in both indexes. Surat Al-T'ur (the Mount), and Surat Al-Inssan, (the People).

Surat Al-T'ur emphasizes signs from God to his prophets, Moses, Jesus, and Mohammad.

Surat Al-Inssan(the people). The guidance from God thought his prophets to all mankind, the people. These two Surats complete each other, and 76 is a multiple of Nineteen (19). Therefore:

$$(19 \times 4) = 76.$$

Index I.

Index II.

Surat # 95 “Muhammad” and Surat # 95 “Al-Teen”. (The figs)

Surat “Al-Teen”:

“In the name of God, the Beneficent, the Merciful.”

- 1- By the Fig and the Olive!**
- 2- By the Mount Sinai!**
- 3- And by this in violated Peaceful City!**
- 4- Indeed We created man in the best structure.**
- 5- Then We reverted him to the lowest of the low;**
- 6- Save those who believe and do good deeds, for them shall be recompense incessant.**
- 7- O’ Man! What then can make thee belie after this the Final Judgment?**
- 8- What is not God, the Judge of the judges?**

There is a connection between the two Surats. God announced the significant of these kinds of fruits, Figs and Olives. Also the

significant of these places: Mount Sinai and Mecca. These places are holy to the three religions: Judaism, Christianity and Islam. God wants Peace to the three Abrahamic religions. Also the number 95 is a multiple of Nineteen (19). Math work: $19 \times 5 = 95$.

Index I.

Index II.

* Surat # 114 is Al-Nasr (victory) and Surat # 114 is Al-Nas (People).

These two Surats connect to each other perfectly. God wants the victory to his good people. Also the number 114 is a multiple of Nineteen. $19 \times 6 = 114$.

New observation: When I went to Hajj, I observed the following:

I went to Medina and to Mecca. In Medina there is a great Mosque, (Mosque of the Prophet Muhammad pbwh) and in Mecca there is the greatest Mosque of The Kaa'ba (the forbidden Mosque). Before I went to Hajj (pilgrim's duty), my son-in-law Yasseen, and my beloved daughter, Zanobia, came to see me. while they were visiting, Yasseen told me, "when you go to Medina and to the great Mosque of the prophet check gate number Nineteen (19), and you'll see the name of Imam Ali written above that gate". For certain, when I was there, I checked gate number

Nineteen and I saw the name of Imam Ali written above the gate number Nineteen. After visiting Medina and the great Mosque of the Prophet, we went to Mecca, then to the great Mosque of the Kaa'ba, where we performed the Hajj duty. After all these duties in the Holy places, I went around the Great Mosque, which is around the holy Ka'ba, and I found many gates. I went around looking for gate number Nineteen (19). I found gate number Nineteen! And whose name was written above the gate number Nineteen? The name is Imam ALI!

Chapter 19

The Miracles of JESUS

And studies of Juwish Mysticism

Matthew 15:30-38

15:30: Then the great multitudes came to Him, having with them the lame, blind, mute, maimed, and many others; and they laid them down at Jesus' feet, and He healed them."

15:31: So the multitude marveled when they saw the mute speaking, the maimed made whole, the lame walking, and the blind seeing; and they glorified the God of Israel."

15:32: Now Jesus called His disciples to Himself and said: "I have compassion on the multitude, because they have now continued with me three days and have nothing to eat. And I do not want to send them away hungry, lest they faint on the way."

15:33: Then his disciples said to Him, "where could we get enough bread in the wilderness to feed such a great multitude?"

15:34 : Jesus said to them, "How many loaves do you have"? and they said: "Seven, and a few little fish."

15:35: So He commanded the multitude to sit down on the ground"

15:36: And he took (the Seven loaves) and the fish and gave thanks,

broke them and gave them to His disciples; and the disciples gave to the Multitude”.

15:37: So they all ate, and were filled, and they took up (seven large baskets) full of the fragments that were left”.

15:38: Now those who ate were four thousand men, besides women and children.”

The miracle is here. Yes, it is a miracle performed by Jesus and does relate to the number 19. Jesus fed four thousand people from seven loaves of bread. Verse 38 confirms this great miracle. The number thirty-eight is a product of nineteen (19): $19 \times 2 = 38$.

There was another miracle when Jesus fed five thousand people with five loaves. Chart # 19 below illustrates the comparison of the two times that Jesus fed the people.

Chart # 19

Fed 5,000		Fed 4,000
at Bethsaida		at Decapolis
Jewish audience		Gentile audience
5 loaves		7 loaves
12 basketfuls left	+	7 basketfuls left = 19 basketfuls left.

Mark 8:1-9

8:1: In those days, the multitude being very great and having nothing to eat, Jesus called His disciples to Him and said to them,

8:2: I have compassion on the multitude, because they have now continue with me for thee days and have nothing to eat.

8:3: And if I send them away hungry to their own houses, they will faint on the way; for some of them have come from a far.

8:4 Then his disciples answered Him, “How can one satisfy these People with bread here in the wilderness?

8:5: He (Jesus) asked them, “How many loaves do you have? And they said, “**Seven**”

8:6: So He commended the multitude to sit down on the ground. And He took the **Seven** Loaves and gave thanks, broke them and gave them to

His disciples to set before them; and they set them before the multitude.

8:7: They also had a few small fish; and having blessed them. He said to set them also before them.

8:8: So they ate and were filled, and they took up *seven* large baskets of leftover fragments.

8:9: Now those who had eaten were about four thousand, And He sent them away”.

Also Jesus fed 5000 people out of five loaves, and after all they ate and they were full;Twelve basketful left over. The miracles of Jesus were conformed by Mathew and Mark. $7 + 12 = 19$.

(Studies in Jewish Mysticism, Joseph Dan, Association for Jewish Studies. Cambridge, Massachusetts: 1978, P 88).

Based on studies in Jewish Mysticism: The Name is: Rabbi Judah. The time is: 12 Century AD.

It is significant that the same **Nineteen (19)** mathematical compositions were discovered by Rabbi Judah in the twelve (12th) Century AD in a preserved part of the Old Testament. Below is a quote from Studies in Jewish Mysticism.

“The people (Jews) in France made it a custom to add (in the Morning

Prayer) the words: “Ashrei teminei derekh (bless are those who walk the righteous way),” and our Rabbi, the Pious, of blessed memory, wrote that they were completely and utterly wrong. It is all gross falsehood, because there are only **Nineteen (19)** times that the Only Name is mentioned (in that portion of the morning prayer) ... and similarly you find the word Elohim **Nineteen (19)** times in the periscope of Ve-‘elleh shemot ...

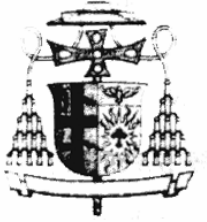

“Similarly, you find that Israel was called “sons” **Nineteen (19)** times, and there are many other examples. All these sets of **Nineteen** are intricately intertwined, and they contain many secrets and esoteric meanings, which are contained in more than eight volumes. Therefore, anyone who has the fear of God in him will not listen to the words of the Frenchmen who add the verse “Ashrei temimei derekh.” For it is a great and hidden secret why there should be 152 words?...”

Furthermore, in this section there are 152 words which is a multiple of Nineteen (19). Math work: $(19 \times 8) = 152$.

Dear readers,

The mysteries of the number **Nineteen (19)** and Multiples of **Nineteen** which are mentioned in the Holy books of the Almighty God are solved through my studies, research and discoveries, and just by looking at:

Dear Dr. Shoucair:

Thank you for the kind gift of *"Circle of God" Nineteenth Century and Beyond*. This book is indicative of how each of us wishes to appreciate and understand the commonness we possess as God's people.

I thoroughly enjoyed my visit at the House of Wisdom recently during the Holy Month of Ramadan.

As we continue to pursue peace and understanding among the three Abrahamic faiths, please know of my thoughts and prayers for you and your family. I am

Sincerely yours,

A Glance at the Author

Afif N. Shoucair, adopted the name Al-Yameen too; He was born in Lebanon, in the Middle East, in the Nineteenth of May 1938. He loved his parents, and he called his father, God's lion, and he called his mother Angel's of God. His family lived in the suburb of Beirut. He and his brother went to a school in Beirut by the name of Madrassat Al-Hikmat or The Wisdom School. After Graduating he opened a school of his own, for the low income families, and that was in summer of 1959. The name of the school was Modern Lebanese School, an educational Institution in Bouj-Hammoud, in Greater Beirut. The Author embarked on his early career of promoting Education. He went to the United States of America in 1962, to learn about the American Educational System. He went to American Universities, and subsequently, teaching in both countries, the United States and Lebanon, and he loves both counties. While in America the Author suffered many tragedies; His only brother Dr. Ezzeddine N. Shoucair died at the age of 35 in Mt. Carmel hospital, with a massive heart attack in November 22, 1971. The author and his late brother came to USA for higher education. They graduated with high honors, and distinction. Civil war hit Lebanon, the author's mother died, then his sister, and then his father. A dark cloud overshadows the

author's life. He went under tremendous sadness and pressure. He himself suffered an intensive heart attack, he submitted himself to the will of God. Before surgery he prayed and promised the Almighty God, if he stayed alive he will publish his research work. The Almighty God listened to the author's prayers. The author published two books: Mysterious Nineteen in both Arabic and English, also Circle of God in Arabic! And now Circle of God in English. The author has fulfilled his promises and he is content. The author has a sincere belief in the Almighty God and His miracles of Nineteen and Circle of God. The author believes strongly that Circle of God is the only solution to a genuine peace to all mankind on the globe. The author believes beyond any doubts, that the words of God are absolutely will come true sooner or later. The Almighty God said: ***"Over it are Nineteen*"; "And we have set none but angels as guardians of the fire, and we have fixed their number as a trial for the unbelievers, in order that the people of the book, may arrive at certainty, and the believers may increase in faith, and that no doubts be left with the people of the book and the believers*"***.

The author is married and he is very proud of his family. His wife Suead is a teacher; his older son Dr. Dean Shoucair is a medical Doctor, he is

married and has two handsome boys; his second son Saad is a successful engineer; also his daughter Zanolbia is a licensed physical therapist, and happily married with two beautiful children; his daughter Summer is a college graduate, historian and script writer, happily married with two smart and beautiful children; his daughter Sarah is a director in education with post graduate, and she is happily married. All of them were graduated with distinction and honor. His son Adam is a political science major, writer, and music talented and works for a big company. His youngest son Benjamin is a gifted poet, pursuing Anthropology degree, and he wants to be a university professor. The author is a man of two countries; Lebanon and the United States of America, and he loved both equally. He is very proud of his family, and proud of his first home Lebanon, the jewel of the Middle East; also he admires the great advancement of America, which is done by hard work. The author wrote his books in two Languages, English and Arabic. He is very proud of his heritage, and admires all the Lebanese and the Arabs in general for contributing in many ways and skills, to this great country America, which we became very good contributors to the American society in general. The author's lifelong desire was to help people in every way as his father before him did in Lebanon. Also He wants to enlighten the

mind of the people around the world to establish a genuine Foundation for peace. The Author has one wish to make: He hopes that every one in this world have the appportunity to read this book: **“Circle of God” 19th Century & Beyond”**.

When you knock on the door of Circle of God; the door will open for you, and your heart will be filled with love and peace.
